So far it's pretty good. I'm only taking the PSAT this year as a sophomore to get a feel of what the test is gonna be like and what other standardized tests are like for my junior year. So far, I'm a little biased towards Princeton review because I think I like their books over Barron's. I'll update this review once I take the test. But so far, it has offered some pretty good tips.

book serves it purpose for a practice book
