## Synopsis

China today bears little resemblance to the country introduced in the first edition of Understanding Contemporary China, published nearly two decades ago. Even in just the past five years, dramatic changes have occurred under the leadership of President Xi Jinping. This new edition of the book reflects those changes, exploring the impact of new domestic policies; China's role as a behemoth in the world economy; its rapidly modernizing infrastructure; its expanding military presence in the region; the environmental challenges it confronts; and much more. The result is an accessible, well-grounded look at the most crucial issues affecting China today.

## Customer Reviews

Leading readers almost painlessly through an extensive tour of modern China's events and issues, this anthology is well planned and, with its extensive bibliographies at the end of each chapter, a useful guide to deeper study as well as a rich resource for acquainting readers with

China.... A well woven and brightly colored tapestry creating a kaleidoscopic and vibrant picture of China. (Mary Karen Solomon, Education About Asia)

Robert E. Gamer is professor emeritus of political science at the University of Missouri-Kansas City. Stanley W. Toops is associate professor of geography and international studies at Miami University.
