The Reasons For Seasons

Synopsis

Why is there winter in the Southern Hemisphere at the same time there is summer in the Northern Hemisphere? Here is an explanation of how the position of Earth in relation to the sun causes seasons and the wonders that come with each one of them. Summer. Autumn. Winter. Spring comes again. Year after year, the seasons repeat themselves.

Customer Reviews

Item arrived earlier than expected in excellent condition. My two year old is fascinated and listens attentively even though I think the concepts are be way too advanced for him to grasp. I was surprised when he asked to hear it again after his nap and said " It's a Good Book!" when we finished. Clearly he doesn't understand everything; there are many abstract concepts like the rotation of the earth on its axis and the rotation of the earth around the sun, but he does relate to the pictures and the information about the seasons which he is experiencing, like snow and the cold of winter. He also is a word sponge and repeats everything he hears. There's lots of new vocabulary to enjoy here!

My three year old son is learning about seasons in school. We are skipping the parts about the positioning of the earth and the sun. He will be able to increase his understanding as he gets older.

My 6 year old grandson loves viewing documentaries about storms and weather changes so I thought this book would help his understanding of the seasons. My daughter says he likes the book

a lot.

educational reading for my 6 year old she enjoyed the book very much, I enjoyed the book to :)
refreshed the old brain

Gail Gibbons is always spot on.. Great book to teach seasons. Although it was a little more information needed for my 1st grade class it was still a good resources!

Fabulous book with just the right amount of information for my first grade students. The pictures are bright and colorful with the right balance between interesting to look at and simple enough to understand.

Very kid friendly and great illustrations!

Good for introducing the reasons for the seasons, even for grade 5.
