Concise Review Of Critical Care, Trauma And Emergency Medicine: A Quick Reference Guide Of ICU And Er Topics

Synopsis

About the Book: Concise yet comprehensive review of the Critical Care and Emergency Medicine. Most commonly encountered clinical scenarios and relevant topics are summarized in an easy to understand format. Can be used as quick reference guide during rounds, or during the patient encounter. Simplified version which can be used by physicians, pharmacists, nurses and allied health care staff. Author Biography: Dr. Asif Anwar graduated from Northeastern Illinois University, in Chicago IL, in 1997. Later he proceeded with his Internal Medicine residency training, at University of New Jersey (UMD-NJ) and Saint Louis University in Saint Louis Missouri. He also completed his fellowship training in Pulmonary, Critical Care and Sleep Medicine from SLUH in 2008. He has been affiliated with the US Air force, and currently holds the rank of a Major, and works with the Critical Care Air Transport Team (CCATT), and as a Flight Surgeon with the Air National Guard. He is board certified and a Fellow of American College of Chest Physicians. He is Clinical Assistant Professor, at University of Wisconsin-Madison, and Marquette University in Milwaukee, Wisconsin. Dr. Anwar has published original research in the peer-reviewed scientific journals.

Dr. Asif Anwar, M.D, M.S, F.C.C.P graduated from Northeastern Illinois University, Chicago IL, in 1997. Later he proceeded with his Internal Medicine residency training, at University of New Jersey (UMD-NJ) and Saint Louis University, Missouri. He completed his fellowship training in Pulmonary,

Critical Care and Sleep Medicine from SLUH in 2008. He has been affiliated with the US Air force since 2005 and currently holds the rank of Major and is associated with the Critical Care Air Transport Team (CCATT), and as a Flight Surgeon with the Wisconsin Air National Guard. He is board certified and a Fellow of American College of Chest Physicians. He is Clinical Assistant Professor, at University of Wisconsin-Madison, and Marquette University in Milwaukee, Wisconsin. Dr. Anwar has published original research in the peer-reviewed scientific journals. â ¢ Concise review of Critical Care, Trauma and Emergency Medicine â ¢ Most commonly encountered clinical scenarios and relevant topics are summarized in an easy to understand format â ¢ Can be used as quick reference guide during rounds, or during the patient encounter â ¢ Simplified version which can be used by physicians, pharmacists, nurses and allied health care staff

This book is well organized, easy to read and reference, and is pretty comprehensive. It doesn't go into great detail on things so if you need that kind of detail, this book would be great at letting you know what to search for.

Gave it as a gift to GF who works as a trauma/flight RN. This is good for the purpose it was made, as it is in the cover - A CONCISE REVIEW. It is not meant to replace full blown textbooks, so this is good for people who are starting ICU/ED/Trauma. For medical students and residents, this might be really all you need to know. For fellows, critical care attendings, this is too basic.

Great information in an easy to comprehend format.

It's been a good reference for me

A good little review book to have while in school and working out in the field. I bought it for my critical care semester of nursing school. Now that I'm officially a RN, I still glance at it from time to time.

excellent..thank you very much.

It is well written. Very basic review. I was looking for something a little more in depth.

Great review which highlights the most important information, true to its title. If you are looking for an

in depth review this is not for you.
