Amelia To Zora: Twenty-Six Women Who Changed The World

Synopsis

Twenty-six amazing women; twenty-six amazing stories. From Amelia Earhart, pilot and adventurer, to Zora Neal Hurston, writer and anthropologist, learn about the hardships and triumphs that inspired each woman to change the world around her. Detailed collages and illustrations draw from various events in the women's lives.

Grade Level: 3 - 7

Customer Reviews

" . . this one is very smart--in design, art, and choice of subject." "With spirited language and marvelous collages, an abecedarium of contemporary women takes flight. . . . An inspiration and a delight."

Cynthia Chin-Lee was born and raised in Washington, D.C., in a family with four older siblings. Her father is a medical doctor and her mother an artist. Cynthia picked up a pen and began writing for fun when she was in the sixth grade. "I liked writing poetry and scribbling in my journal because I found it comforting and therapeutic. I still write for that reason and because I like playing with words." Cynthia has written several books for children and lives in California.

My 5 year old daughter and I love this book. Reading about the different challenges the featured

women faced and their successes have given me a chance to explain societal issues such as racism, misogyny, and the barriers these women broke through and the freedoms we enjoy due in part to their hard work. I keep emphasizing to her that obstacles can be overcome with dedication and hard work.

Awesome book! My 7 and 10 year old cousins (both girls) love to read a few each day and they talk about who's their favorite and why. It's really nice for them to see some strong female role models from the real world and the 10 year old has started talking about how she now wants to be an engineer and the 7 year old is really taking a liking to Grace the programmer (mostly because they share the same name but it's very exciting!)

I didn't before reading this, but it is a great way to learn of the importance of women in every walk of life. It is very readable and will get the point across to young listeners that women - whose names begin with one of the 26 letters - can do anything!

The book has a great mix of well-known women and some that I have never heard about before. I bought this for a 1st grader and she of course needs help reading it, but the illustrations are great and she stays engaged. The pages are quite thick and durable. I highly recommend the book.

Some of the writing is hard to read as it is over some of the darker picture and ink is black. Information is good but should be in a white area for clarity or a different color ink.

I thought i ordered the hardback but i recieved the paper back book but that could have been my mistake. Great quality with great women. Perfect for my daughter

I bought this book for my niece and the illustrations and descriptions in this book are beyond what I expected. There is a quote from every woman featured in the book. This is a great book for any child to read and I will be looking to see if the author has written any other books because this one was so well done.

This is an inspiring set of women, perfect to show a little girl (or boy) that women too can do amazing things. It is wordy though, so its too much for my 3 year old, but great for her 7 year old cousin. I have put one away for when my daughter gets older though.
