Draekon Fire: Exiled To The Prison Planet : A Sci-Fi Menage Romance (Dragons In Exile Book 2)

Synopsis

Crazy jungle planet. Killer orange fungus. Crimson snakes in the water. The worst part? While I was in a coma, I seem to have acquired two dragon mates. When I wake from my coma, the first thing I see are two hot aliens. And I'm informed that they're my mates. I don't think so. This isn't the story of Sleeping Beauty, and the two sexy, possessive, Draekons aren't my fairy tale princes. I'm certainly not going to wake up, kiss them, and live happily ever after on this stupid prison planet, where everything's out to kill me. Not happening. Not even if they heal me from my injuries and nurse me back to health. Not even if they protect me, care me, and keep me safe. Not even if their abs could grace the cover of every men's fitness magazine back home. Sleeping Beauty isn't going to kiss her Draekons. She's going to find a way back home. Draekon Fire is the second book in the Dragons in Exile series. It's a full-length, standalone science fiction dragon-shifter MFM menage romance story featuring a snarky human female, and two sexy aliens that are determined to claim their mate. (No M/M) Happily-ever-after guaranteed!

Customer Reviews

This is the second in the Draekon series and you really need to read the first book to understand what's going on. Considering it's an EXCELLENT book, that's not a hardship! Harper is one of several women who were on their way to another planet to become mates to the aliens. When their ship crash lands on a prison planet, the women learn about the Draekons who are dragon shifters. But they can only shift after they meet their mate. Harper was in a coma during most of the events in the first Draekon book so when she wakes up, she learns two studly dragon shifters have decided she is their mate. That's hard enough for her to deal with, but these two aliens also carry a lot of baggage and she has to decide if she can handle that. Can she accept them as her mates? And can they let go of their tragic past? I love Lee Savino's books. The Draekon series is just another winner. The menage scenes are panty-melting hot. As their courtship continues, secrets are revealed and the sex gets hotter. This story builds on the first and gives you more insight into the Draekons as well as glimpses of the politics of their homeworld. The writing is spot on. Lili Zander and Lee Savino meld their writing styles and it is polished perfection. The imagery is imaginative but still recognizable. I found no typos or misspellings (yes, I look for them) and the thickening plot is intriguing and well done. I will definitely put the next book on my one-click list.

I am so enjoying this series. Harper is our next stranded girl we read about. In the first book, she had touch some kind of orange goo and was poisonous. She was put in a pod for stasis till they could get help. And HELP they got. Dennox and Vulrox are also stranded on the planet as the others. Their past haunts them. They know that Harper is their mate but the fear what happened to their last mate. They want to be sure before things progress. Harper wants to go home to Earth but was is there: pizza, internet, cell phone. But Harper doesn't believe everyone about mates and dragons. Till she sees it for herself. Now they are all fighting the attraction. But will the past repeat for Dennox and Vulrox or will it be different. This is hot and sexy with dragons. Can it get any better then that. I cant wait to read about the others. This is far from over. We still have a missing group. Waiting on baited breath.

This is the second book in this series and I devoured it just like the first one ,the only problem with reading both books so fast is that it seems like forever till the next one

The dragons are amazing but the female characters are not very likeable. They spend more time whining then doing anything. Unsure whether I will read the third.

Book 2 has Harper waking up from her coma. There are intrigues, politics, revelations, and dangers...but best of all, LOVE. Who is book 3 about???

As with the first book, it was an okay read. And, as with the first, I have read worse book here that were highly rated.

Lee and Lili write great stories on their own, and when they get together, dragons start flying around. Welcome back to the Prison Planet. We pick up right where we left off in Draekon Mate. Only this time we're focusing on Harper, who had fallen into a coma in the last book, and is now wasting away. Dennox and Vulrux are sitting vigil over her since they know she is their mate. They haven't told anyone at all and they haven't told anyone that they had had a mate before and watched her killed in front of their eyes. The scientist who crashed on the planet with the human women comes into the cabin where Harper is and tells Dennox and Vulrux how to save her. When Harper comes out of her coma and starts to recover, she is stunned by what is going on and to find out that she has two hot dragon mates. She wants to figure out how to escape and gets angry with the other women for not trying and argues with them, until she is present with the rain from the rainy season and starts to understand that getting away right then isn't possible. That leaves time for Harper, Dennox, and Vulrux to spend time together so that they can try to see if their bond will work. Vulrux and Dennox are both worried about different things in their past, and that scares Harper. The question is, can they get past everything and get to their HEA? I love the story. I loved watching the journey that Harper took to accept what was going on, and that Dennox and Vulrux were patient with her, understanding that her entire world had turned upside down. They didn't try to rush her into any decision, just enjoyed being with her. I like Harper because I think I would be in the same place she was when she came out of her coma. She was angry and scared, and I would be too. I think Harper may be one of my more favorite heroines in a long while. I really recommend this book.
