Customer Reviews

Great for piano students.

Excellent Piano method. The theory in this level compares to some college level theory course material.

I am a piano teacher and use these books for all my students.

Good book and not written in.

I've been a piano teacher for nearly 40 years and have used this series of books solely. They are the best step-by-step learning system, covering Theory, "Lessons" and supplemental material which complement the lesson book. I wouldn't consider using any other series.

Very nice instructional book. I am pleased and proud to provide these to my students. I will buy these in bulk.

it actually teaches you what you need to be taught, and does a good job doing so:) overall it's good:)

This is a great series my kids are doing so well and piano! We have been using this series for years
