Customer Reviews

I bought this book to help sort out my many bins of Beanies. It's well laid out, easy to navigate and was even a fun walk down memory lane for me and my now college-age girls! This book has been very helpful identifying not only beanie babies but other plush from Ty as well. I hadn't realized quite how many Ty had made. I thought Princess Diana was worth more, but it's no surprise that it's not worth the amount people think it is because it was a charity beanie and many were made. I loved the section on identifying the tags, too.

A+

bought as gift. was disappointed that the Monstaz weren't included.

This is a gr8 book, started collecting beanies in 2006 Holiday only, purchasing here and there, not realizing I had so many. Never saw any books for sale on them so one day I typed in beanie books and was amazed at what came up. Researched for a bit and discovered the Tracker was the most complete of all. Purchased and like any good book sat down and read it cover to cover, with trash and paper wrapping still in my lap. Found out so much about my crazy new collection. The Tracker organizes by name, makes it easy to identify and verify the one you actually have, no skipping around.

Great !

I wanted the book for future reference as I collect these things over time just the TY babies are worth anything to my knowledge.

The Beanie tracker was in good shape and the shipping was very fast. The book is a good way to find information on all the beanies.

Book was extremely helpful in determining the values of a beanie baby collection.
