Customer Reviews

STARRED REVIEW: "Kenney, along with historian Edward G. Lengel, introduces middle grade students to the key events and major characters of the first modern war in the 20th century. Filled with color and b&w maps, infographics, and behind-the scene photos, the book covers the events that led to war, battlefields, the home front, major personalities, and a reflective afterword which includes an interactive glossary and websites for additional investigation. One of the highlights of this book is the sidebar panels that feature various medals of valor, headgear fashion, and animal soldiers. The panel graphics are so

clear and concise, it almost looks as if the reader can touch them and feel the textures and depth. This volume can be read for enjoyment by war enthusiasts, by reluctant readers who prefer nonfiction, and in grade level curriculum. HIGHLY RECOMMENDED" -Sabrina Carnesi, Library Media Connection, March/April 2015

I will be using this with my students next year for history, I only wish you had one for the French Revolution as well. But beggars can't be choosers, right.

This book was perfect for me to teach my son about WWI. It even has a little quiz at the end.

The delivery and item were excellent. I noticed it only received one star somewhere and that was entirely wrong!

Quite informative book for children to learn some of the history of the world

Oh Boy! What could be more fun for children than learning fun stuff about people killing each other!
