Chromatic Harmonica

Synopsis

This is a step-by-step approach to the chromatic harmonica by the renowned harmonica player Tommy Morgan. Pictures and text clearly show you exactly how to hold the instrument and play. This book is great for the beginning player to advanced players who want to improve their playing and music reading. Basic music notation is explained as well as bending notes and special effects.

Customer Reviews

Tommy Morgan's book has been more help to me as a learner of the chromatic harmonica than all my other books. Okay, he doesn't present complete tunes, but his exercises are excellent and he has a way of sneaking in occasional traps to trip the over-eager learner -- I've paid much more for Chromatic Harmonica books and learned a lot less. Learning with this book is a long-term project, but returning to the earlier lessons is a great boost to a flagging morale when you feel yourself losing your way. Thank you for the music dictionary in the back pages. I may yet master this difficult instrument, or have a lot of fun trying, Tommy Morgan. Absolute beginner, James Verran.

Of five harmonica books I have, this is the only one that provides a chart listing the different Hohner chromatic harmonicas ALONG WITH THE NOTE NAMES CORRESPONDING TO THE HOLES. This feature alone makes it my go-to book when I practice everyday. Knowing which notes come from which hole (blow and draw) will allow me to play almost any solo part in any key. On .com you can "open" the book and see the chart. This is what sold me on the book, and I would have paid the

asking price for this chart alone.

Good for beginners on the chromatic

Finally a book that tells me what I really needed to know about playing the chromatic harmonica. All my questions are answered in this book.

Excellent book, particularly if you already play another instrument and don't need a lot of handholding. Accurate, to the point, no nonsense. A relief after stumbling through happy talk "dummies" style books. Nice overview of specialty harmonicas, too, like chord and bass models.

My review is not for this book it is for the fact that I didn't order it on Kindle. Unfortunately I cannot find a way to talk to anyone to cancel it besides deleting it on my account and disputing the charge on my credit card.

good reading lots of info good book

My husband really made use of this book, and is enjoying learning to play his harmonica.
