Great set of books!

nice

Very please with the Faber teaching materials. This book provides a first look at the structure of sonatas by simplifying the various sections of these musical pieces. I will but all of the follow on books as well. They are wonderful ways to expand your insight to more complex works.

These are very easy pieces to play if you are at the 3B level in Piano Adventures but they are more fun and lovely to play than the music in just the lesson book. They are a nice supplement to showcase what you have learned in the lesson book. All very easy to play but melodic and not too "dumbed" down sounding like some performace pieces.
