Customer Reviews

The book is great but the diagrams are too small to be read. Some hands I can't tell what the writer is trying to teach because the table icon is too small to read the cards. I have to rely on reading the text to understand what the writer is saying because of what I wrote earlier. I only gave it 3 stars because of this and because the book is expensive. I just might return it.

Great post flop book. Full of info

Very comprehensive look at the post flop situations. Mostly focused on 6-max SNG with some discussion on cash games and MTT

Best Poker book on postflop ever.

excellent book, a must read.

Invaluable

It meets my need.

Written mainly for the sit and go player. Been playing poker for a year and read a few books, nothing new here. Amy Duke also has a book telling you what actions to take based on position, hand strength, initiative, HU, etc.
