Unbound (Forbidden Bond Book 1)

Synopsis

Girl gone wildâ |College is supposed to be a time of discovery, but Danielle Vaughn never imaged it would be like this: heightened senses, supernatural powers, and a sudden craving for human blood. Dani is a demi-vamp, the daughter of a human psychic and a vampire noble, a living secret kept hidden for twenty-one years. As Daniâ ™s heritage manifests itself, her thirst for blood is matched only by her hunger for Chase Diedrick. But as the son of the Vampire Councilâ ™s most powerful ruling family, Chase is already promised to another. Dani saw Council politics destroy her motherâ ™s life; she wonâ ™t let the same thing happen to her. Besides, thereâ ™s no shortage of men who are eager to satisfy her every need, including the alluring vampire Kayden. Unfortunately, Dani also has no shortage of enemies. Her heightened powers of telepathy and telekinesis attract the attention of a rogue vamp who preys on gifted vampires, absorbing their skills along with their lifeblood. Now, Dani must seek the Councilâ ™s help to quickly master her new vampire lifeâ |or risk losing it. Revised edition: This edition of Unbound includes editorial revisions.

Customer Reviews

Have you ever picked up a book and completely lost yourself into the story? That is exactly what

happened to me when I began The Forbidden Bond Series. From the moment I picked up this series my real life faded away and my world became about Dani, her mom Tessa, and the countless hotties vying for Dani's affection. I became obsessed on what would happen next. Sometimes I'll pick up a book and it starts off slow and builds up to the drama, not with this book. It was gangbusters from the very beginning. For my review, I won't go into the story synopsis since you can read it in the product page. But I will tell you why I gave it 5 stars. Simply put, I could not put it down. I immediately became invested in each of the characters from the beginning starting with Tessa (Dani's mom). I related to her as a mother. In essence, she fell in love and the guy that she fell in love with is a piece of work. Tessa is human and humans are considered below Vampires in the social food chain. Tessa falls in love with Griffin. Griffin is from an elite vampire family. He is expected to marry one and form a blood bond of his own arranged by his family. But Griffin goes behind his family's back and secretly mates with Tessa who is carrying his child. What happens? Griffin thinks she is dead, turns his back on Tessa, turns his back on his first family, and begins again. I am purposely leaving out important parts of the story because you have to read it for yourself. And when you do - hopefully you'll agree with me that Griffin is a total whining douchebag and that Tessa can do better. I digress, the story is mainly about Dani but I just love Tessa so much I had to get that part into the review. This story had me feeling extreme emotions and at times feeling raw. Dani, our heroine, goes through so much crap its unbelievable! She gets kicked down so many times I wanted to be her BFF and kick some vampire arse on her behalf. I understood why she made a lot of decisions but at times I wanted to take her out for a girls night and knock some sense into her. The vampires and all its inhabitants are beneath her and they don't deserve her one bit. But I guess Dani is stronger than I am because she is able to forgive. And lets be honest, sometimes forgiveness is difficult to give those that have hurt us in the most intimate of ways. My emotions went up and down throughout this book. This book had it all for me but most of all the characters are so multi-dimensional. They aren't flat and the book is paced wonderfully. It was quite funny that I was so engrossed that I just didn't want to put it down even to go to the bathroom. I think I might have lost weight because I even forgot to eat when I started reading this book. At first, I thought this book might be to young for me since Dani is in college but the college setting was simply just that - the setting. The world of vampires, its hierarchy, psychics, demi-vamps, love, betrayal, emotions running high, passion...gosh it had it all! Please give this book a chance and read it. Take a chance on this author. She is an amazing story teller and I can't wait for the next installment. Prequel: *Unafraid* (A Forbidden Bond Series Novella) Book 1: *Unbound* (The Forbidden Bond Series) Book 2: *Unforgiven* (The Forbidden Bond Series)

My Thoughts You know a book is good when you share the emotion the characters are feeling. Well I did just that it was like I felt everything Dani (Danielle) AKA Soleil felt throughout this whole story. Cat as created a wonderful cast of characters. Characters that you will love and adore and other well ok we will say despise. I know there was a few characters that I would like to kick their ass lol. Our journey is with Dani (Danielle) AKA Soleil Vaughn (Scott). For 19 yrs she lived her life a plain human with just here mom. The day before college she started showing signs of her fathers genes only she was not aware of that at the time. So goes off to college hours away from home and her life is turned upside down and she is thrown into a world she did not even know existed. She has men that flock to her and she can not figure out why but when the truth comes out her life ends up in danger. Can she escape the danger and end up with the man of her dreams the one that holds her heart and soul. Cat will leave you sitting on the edge of your seat with all the twist and turns that she throws at us. This story is like a roller coaster ride the one that you can not get enough of and want to keep standing in line to do it again. So be prepared to be enthralled.

Unbound by Cat Miller. I finished reading this book and had to take time to process all the emotions that this pulled from me. This is so well written and the characters so fully fleshed out it is hard to believe they are not real people. Danielle Vaughn struggles with her new found identity and powers. She is hurt by lies told by her mother to keep her safe. Chase Diedrick is of the Elite Class of Vampires and he is so drawn to Danielle you could say he becomes a stalker. As the story progresses you are introduced to more and more characters that you become very attached to and worry about. There were several times that the story brought tears to my eyes because you can relate to the pain of the character. A beautiful story and wonderful writing. Get the book!

I'm a big fan of Paranormal romance books and when I see a new Vampire novel I'm always curious. Is the book going to be unique to make it different from what is already out there, Unbound did not disappoint me. Danielle Vaughn's life is about to undergo a huge transformation, she has no idea who she really is or that she is the key to a family secret that's been kept hidden for twenty one years. She suddenly finds herself thrown into a world of Vampires when she discovers she is the daughter of a Vampire noble. Her mother who has protected her out of fear of what might happen to Danielle once the Vampire council finds out about her existence. There are supposed to be no Human and vampire mix and human's are thought of only as a food source. Along the way Dani discovers that not only is she a Demi-Vamp but she has very strong powers that some want to use

her for, and also makes her many enemies. When Dani's thirst for blood begins to consume her, in walks Chase Diedrick a vampire from another powerful family, she finds herself torn between Chase and another warrior vampire Kayden. This book has a lot of emotion, action and very hot romance. The author really takes you on a adventure into a new world of vampires that at the end of the book, you will really want more.
