Customer Reviews

This is a good set at a great price. I'm a big fan of the Batman miniature that's included. But a word of caution: Rather than the Flash and Blackfire miniatures shown in the picture (the 2 on the bottom left), the set comes with Man-Bat and Hawkgirl.

This HeroClix set is an awesome one, Especially for people who love batman. This set has six figs, Batman, Robin, Hawkgirl, Joker, Man-Bat and Harley Quinn. The figs in this set are not extremely powerful,(point-wise) but there powers and abilities are well done.(they aren't low point characters either) You can make a fair team of Good vs. Evil, each team with three guys each, both have a flying character ect. I love playing HeroClix and these great DC guys are just what i needed in my collection. Unfortunatly, while these figs are well made, they are a bit fragile so be careful!!!

For potential HeroClix players looking for a "budget" way to start play, the Icons starter set is a good way to go. Be aware, though, that the rules have been revised at least twice since this package was

released, so the current state of tournament play won't be reflected in the Icons rule set. But for home play (or as an introduction to HeroClix), the Icons starter's a great value. Add a couple of separate booster packs for even more fun and variety.
