Technical Communication (14th Edition)

Synopsis

For courses in Technical Communication. Comprehensive, user-friendly instruction in workplace writing, technical communication, business writing Today's employees are tasked with writing documents such as emails, memos, letters, and informal reports, as well as more complex forms of communications such as formal reports, proposals, web pages, and presentations. Technical Communication, Fourteenth Edition builds upon the authority of the previous editions by clearly guiding students to write documents persuasively, effectively, and with an eye towards technological innovations and global communications. It incorporates the interpersonal, logical, ethical, and cultural demands of these different forms of workplace communications and provides students with the necessary skills to navigate these nuisances. Building on research and writing skills and touching on the importance of ethics, the authors prepare students for technical writing in any field. Also available with MyWritingLab MyWritingLab is an online homework, tutorial, and assessment program designed to work with this text to engage readers and improve results. I love this item. Just what I needed.

Great

Good condition. Some highlighter marks but no pens or pencils. Definitely worth it for the money I saved.

Not a three hole punch as stated in the listing. It has two hole punch. I did not realize that a binder did not come with it but It will fit in a regular binder just missing the third hole.

This textbook was Easy to Read and Well Organized! It is full of helpful information, and I wish I had purchased it for future reference rather than renting.

My daughter in college says this text helps her a great deal in her college course.

As described, quick ship

this one did actually get recieved
