I have been looking for a book like this for my 12 year old daughter for a while. It is so thorough and touches on topics that every girl struggles with. We love it's honest approach and real life commentary. We also ordered the study guide to go with it, although the book is enough on it's own.

I've given this to my daughters to help them discern biblical truth about their role as a woman versus what society today tells them. If you're a Christian family with teen-age daughters, I highly recommend this study. It does have more impact when another female adult mentor walks through this with them.

Great book for young girls. Doing a bible study with it with a group of girls aged 13-15 and it

generates very meaningful conversations aimed at preparing them for a bigger world ahead.

Principles are good. Examples are extreme so that the principles fail to connect with young women in generally healthy situations.

I thought this was a great book. I bought it to help with low self esteem for my daughter. Young women are faced with so many things these days that can tear down their self image, from acceptable size to how many likes you get on a picture on social media. She doesn't like to read so I have learned to incorporate suggestions into our conversations.

I really appreciate this book and I hope to set up a bible study for teens at our church. There are a few chapters that are touchy (i.e. Sex) but I know necessary because, even if our teens won't admit it, they are faced with this topic every second of the day. I will definitely recommend this book to others.

It was what they said was. It was a gift and the person I gave it to loved it. Trust me. Buy it you will not be disappointed.

Everybody thinks the way they think... is just the way they think. When 99% of the time it is a lie! This should be a class for all females 12-30. (There is another book for older women.) Why do we waste so much of your lives believing the lies, like...I'll be happy when I'm skinny or I'll be happy when I have a boyfriend, etc. I recommend getting the study guide to go with it!
