Want to do a coloring bk for venice myself. Only a few of the pictures inspire. So sad b,ecause this is such a great subject.

Disappointed in book, drawings were too small and not the best drawings we've seen in City scape Coloring books, for Adults. Did not even use book.

Great illustrations and fun coloring!

I received this adult coloring book as a free digital download. Since my copy was a digital download I am not able to really say how the paper copy would rank. The author explains why the images are arranged the way they are but since I was able to print the images off on whatever type of paper and how ever I wanted to the explanation of the layout did not affect me. I am curious on how the paper copy will affect the coloring experience and look. The art work in this coloring book is amazing. The pictures may be a little difficult to color for some people. The pictures take time and patience but in the end you get a wonderful image that you could even frame and place on display. I really love how the author of the book gave some helpful hints about the colors you decide to use in the images, she explains how certain colors can make you feel. Overall I was pleased with the coloring book.

These images will having you hearing Italian music in your mind as you color them. As you are coloring these pictures, you are transported to Venice, Italy in your mind and forget everything else. They give you a little look at many of the things we associate with Venice; the gondolas, the canals, the buildings, etc. The images range from somewhat simple to more intricate. I really recommend this book for anyone wanting to get rid of some stress and take a vacation without ever leaving your house. I received this book in exchange for an honest review.

I've never been to Venice, but there's PBS and friend's trips on Facebook. The pictures and detailing are simply gorgeous! I haven't begun to color them, but am enjoying them immensely. Thank you LibraryThing Giveaways!

This is one of the most difficult adult coloring books I've encountered. I enjoyed the drawings and the tour of Venice but found the coloring to be too difficult for me.

I love adult coloring books but for me, this one was too 'detailed'. Some might find this relaxing but for me it was not. Of course, personal opinions may vary so if you love Venice you might just love

this book. I received this e-book in a giveaway on Goodreads.
