Great addition to my WOD collection! Fast shipping, as described, so thanks for the great transaction!!

Do you want paranoid players...or maybe a bloodthirsty killer running around your game, or how about a twisted family affair is dating back thousands of years? If so this is the book for you. You get three different versions of VII in this book to mix match or ignore as you see fit. The first grouping of VII is of biblical proportions. "Vampires" descended from the fallen city of Gommorha. They are very

similar to the Assamites in the Old WOD. They we kill everyone they cannot convert to the "faith". Oh and did I mention the demon involved? The second group a weird Russian "family" that's been hunting vampires for centuries. Complete with several "seperate" clans, more like bloodlines but hey, each with their own idea of how best to rid the world of vampires. Lastly you have a paranoid's wet dream with the X-files inspired VII. Are you a sleeper or one of the awoken? If your answer is yes to either don't let anyone else know.
