Customer Reviews

An excellent book if you have the impression that pornography is not Ok but don't know how to justify that feeling.

This book is so full of truth, revealing the real gross misuse of women, children, and the evil intentions of all that were involved with Kinsey and Hefner and there homosexual desires to corrupt nations. And so the evil corruptions unfortunately are going to bring our nations to its end.

This information is a must have for understanding the present day situation in families.

This book is an extraordinary, shocking content analysis of Playboy magazine through the years. Hugh Hefner, rather than the slightly-roguish but benign pioneer of openness he is often portrayed to be, emerges as an agenda-pushing cad with a disdain for marriage, family, children, monogamy, and ultimately, women. After reading this book, one could ever again say "it's only Playboy."

One of the gravest dangers facing young men today is that they will be trapped in early, loveless

marriages and waste the rest of their lives. As this book aptly demonstrates, pornography is probably the strongest countervailing force to the "play for keeps" sexuality taught in many schools. This superb book points the way to a genuine alternative.

An excellent book if you have the impression that pornography is not Ok but don't know how to justify that feeling. The research by author Reisman is very rich, the conclusions appear by themselves, without any need to apply any religious creed.

The author needs to get educated and start living in the 90's! She thinks her opinion is the right opinion and that she speaks for all women and children! She doesn't speak for me! Of all the horrors going on in the world, this is all she can complain about? What a waste of time!
