Chilled (A Bone Secrets Novel Book 2)

Synopsis

As a forensic nurse on a search and rescue team, Brynn Nealey braves a dangerous blizzard to find the survivors of a plane crash in the Cascade Mountains. Joining her is Alex Kinton, a former US marshal with self-destructive tendencies. Alex lies his way onto Brynn's team to find the man who killed his brother and then administer his own brand of vigilante justice. But once the team members reach the plane's wreckage, they discover everyone aboard has perished except for the man Alex is hunting. Alex will do whatever it takes to track his target through the vast, snowy wilderness. As the temperatures drop, however, so do Alex's defenses. His contact with the sharp, kindhearted Brynn makes his lust for vengeance difficult to reconcile with his growing feelings for a woman who risks her life to help others. What will happen to Alex's savage instincts when he finally has the opportunity to confront his brother's killer? In *Chilled*, the next thrilling tale in the Bone Secrets saga, Golden Heart finalist Kendra Elliot weaves an icy tale of cold nights, cold hearts, and cold-blooded killers.

Customer Reviews

This is a fast moving thriller!! The characters were believable and presented in a good manner. I

enjoyed the descriptive action and the way the multi scene was presented. Chilled is an excellent Title for this action packed descriptive novel that makes one reach for a warm sweater while reading it. This is another of the authors books and I will look forward to reading more of them.

I read this book in two days. It held my attention to the very end. I liked the characters and how they interacted with each other. I could have done without the last chapter with its gratuitous sex scene but other than that small criticism I loved the book and look forward to the next one.

This was really an excellent book it had me enthralled to the point of not being able to stop reading this book . Kendra Elliott is an excellent author and has an amazing ability to bring the reader into the actual events that happen in this book . I give this five stars and highly recommend it

Snuggle in somewhere warm and comfy while you follow a rescue team out into the Cascade mountains. A small charter plane has gone down during a winter storm. A routine rescue becomes even higher risk when it becomes evident a killer is now loose.

While I have read books like Chilled before I had a more difficult time getting into this book. It starts slow and made reading it difficult for me. Once it got toward the end it went fast. While others might enjoy this book it wasn't a hit for me.

Kendra Elliot writes the kind of books I like to read. Chilled had so much suspense in it, I had to stay up late to finish reading it. I could not go to bed until i knew what happened to Alex, Brynn, several villains and a faithful dog. The background of the beautiful, snow filled Cascades played both hero and villain in this story of a Search and Rescue team who only had each other to count on while a sadistic murderer was on the loose. I swear I needed an extra quilt since the entire book took place in the sub zero weather of the Cascades. I cannot wait for Ms. Elliot's next book as she is a shining star in the romantic suspense genre!!

Brynn Nealey, a forensic nurse has enough on her plate. She is searching for the crew and passengers on a plane that has crashed in the snow-covered Cascade Mts. Beyond that, she is in turmoil with her boyfriend, who declares they are getting married, but she doesn't feel the same way toward him. Enter Alex Kinton, a former US Marshall who has only one thing on his mind - revenge. Seems that the only survivor of the plane crash is a man that Alex has a personal vendetta with, and

he is determined to find him and settle the score. The characters in this story are so believable and the story line kept me interested all the way to the very last page. I just had to keep reading to find out what would happen next. I highly recommend this book to anyone who enjoys mystery and intrigue with a little romance thrown in for good measure. A good read.

Anyone that is a dog owner or animal lover would be disappointed with this book. The dog gets shot defending owner and she didn't care. I see the importance of the dog for the story line but ruined it with the owner barely acknowledging the dog. Also where did the dog sleep when everyone else got a hotel? Poor follow through and as wonderful as I found the book this ruined it for me. Don't include animals if you're not an animal person.
