Customer Reviews

I bought this book for a student with autism who is crazy about elevators. He was enthralled with the pictures and with the counting. I can not say how it would appeal to the average child of 7 or so, but I can highly recommend it for children who love elevators and/or numbers.

My grandson, who has autism and is fascinated with elevators, loves this book.

Amazing for a special needs child.

Love it!!

My autistic son loves this book !
