Customer Reviews

I ordered this thinking it was Liszt's original score. Instead, it was a simplified version, unusable for my aspiring piano student's competition. I wish that had been more clearly marked on the cover or product description. But the sender credited back my account for the mistaken order. It's an OK piece for a beginner or early intermediate student wanting to play an easier version of this famous Liszt piece.

The pictured cover is the one you get, however when you click "look inside" to see a sample of the music, it is NOT what you get. I thought I was getting a more complicated piece (as per what I saw in the "look inside") but was disappointed when I received it because the cover looked like the picture listed, but the music inside is WAY simpler.

Well the book is from Alfred and it's something else, but the piece isn't what i had in mind. Basically you can't play it well unless you practise Liszt 2-3 hours a day which is something not everybody does. (the average player). And i admit it : it is so much-played and so much-heard that i got bored

from it in about 2 weeks after it got to me. No 6 Hungarian (I have played) is better in that regard I think (for me). The Spanish Rhapsody has to be too, but haven't played it by now!

The music arrived in perfect condition. I love it. Can't wait to learn it, but for me, that will take a lot of time and work. I am very satisfied with the music and the transaction.

most excellent

I like the layout of this sheet music. However, I have not tried the cadenzas to be able to tell if I like them.
