Bateman Weaves, The Missing Monograph: The Basics And Beyond

Synopsis

In the mid-1900â€s, Dr. William Bateman, a Ph.D. in chemistry, spent his retirement years experimenting with weaving. He was not content with exploring only traditional, known weave structures. He developed several new ones that have become known as "Bateman Weaves". They include such names as Park, Boulevard, and Extended Divided Twills, among others. Texts and other information on these weaves are relatively scarce. *Bateman Weaves, The Missing Monograph*, is an introduction and summary of these remarkable weaves. The monograph covers both Dr. Batemanâ€s approaches and those of the author to appeal to a more contemporary audience. Whether used as a guide or as a stand-alone text, *The Missing Monograph* fills a void in the weaverâ€s library that includes: - A summary of unique weaves created by Dr. Bateman: Park, Boulevard, Chevron, Blends, Extended Divided Twills, Extended Manifold Twills and Multiple Tabby, all in one monograph. - Basic blocks for all weaves - Over 150 full-color images - Ideas for going beyond the basics - Extensive bibliography

Book Information

Paperback: 78 pages

Publisher: CreateSpace Independent Publishing Platform (January 11, 2017)

Language: English

ISBN-10: 1539898822

ISBN-13: 978-1539898825

Product Dimensions: 8.5 x 0.2 x 11 inches

Shipping Weight: 9.1 ounces (View shipping rates and policies)

Best Sellers Rank: #348,812 in Books (See Top 100 in Books) #70 in Books > Crafts, Hobbies & Home > Crafts & Hobbies > Needlecrafts & Textile Crafts > Fiber Arts & Textiles

Customer Reviews

Linda Tilson Davis has been weaving for over 40 years. The colors and patterns of landscapes strongly influence her designs and approaches to weaving. Through the years she has come to specialize in tied weaves, twills and tartans. She teaches workshops and seminars and exhibits her work throughout the United States. When she isnâ€t weaving, she is enjoying the outdoors, mostly in the Pacific Northwest, with her husband Tom and their Golden Retriever, Koda. She also enjoys reading and doing volunteer work on behalf of her communityâ€s library system. Other fiber arts such as knitting occupy her "spare time".

First, I love how jam-packed with info this book is, and I absolutely adore the color-coded threading drafts. The descriptions and summaries, the exquisite color photos, the where to start section, the extensive bibliography - The Missing Monograph is a perfect subtitle! The only thing I would change I think is that it would be nice if it had a spiral binding - this is going to be a book to study and savor.

Linda presents an excellent addition to the information on Bateman weaves. The book is well laid out with informative and clear explanations and illustrations. I have done several Bateman weaves and this is a valued addition to my library.

Great book

Weavers have needed this book for quite a while

This is a book with a lot of substance. If you are a weaver who wants to expand your design capabilities, this is a great book to own.
