P Is For Palmetto: A South Carolina Alphabet (Discover America State By State Alphabet Series)

Synopsis

P is for Palmetto is a collection of evocative pages of watercolor that covers this beautiful southeastern state from A to Z. Carol Crane captures the diverse features of South Carolina with her flowing verse and solid expository text, while, within the images of Mary Whyte, you can almost envision yourself standing in the vast cotton fields and walking along the sandy shores of its stunning coastline. South Carolinians, young and old, will treasure P is for Palmetto and educators will find its two-tiered teaching format extremely useful in their classrooms.

Carol Crane has written 14 books for Sleeping Bear Press, including the best-selling P is for Pilgrim: A Thanksgiving Alphabet. As a children's literature advocate, Carol travels across the country, speaking at schools and many conferences. She makes her home in North Carolina. Mary Whyte has earned national recognition as both an artist and illustrator, exhibiting in such prestigious shows as the American Watercolor Society and the Allied Artists of America. Perhaps best known for her distinctive portraits, Whyte has traveled the country capturing personalities on canvas and paper. Whether of a child in a tree or a judge in official robes, Whyte's portraits grace hundreds of private homes, universities, and corporate collections. She is a graduate of the Tyler School of Art in Philadelphia, PA. and conducts painting workshops across the country. She and her husband Smith

Coleman own an art gallery in Charleston, S.C., near where they live.

I really love the illustrations in this book. They are beautifully done, and the stories that go along with the pictures are short but informative. There are some terrific examples of some of South Carolina's rich, lesser known history. I would recommend this book for people with children (6-11 years old) that are studying South Carolina. We used it in a homeschool state study and found it wonderfully helpful.

A little too mature for my 4-1/2 year old grandchild even though she reads at a much higher level. Much emphasis on the Low Country and buildings, history, etc.

Such a beautiful book! I can't wait to read it to the sweet little baby to whom it was gifted!

Great Book but was a little disappointed. The one I had seen in the bookstore was a hardback and had a paper cover this one doesn't.

What's not to love?

I love, love children's books illustrated by Mary Whyte. She is one of the most talented artists ever. Mary is a SC transplant and we love having her here. She has an amazing understanding of South Carolina culture and expresses it so eloquently. We are truly blessed by her work.

Love this book really helped the children to learn about South Carolina!

I must admit I bought this book because I am a huge Mary Whyte fan (illustrator) and I am enamoured with her art. It is consistently passionate and skilled.... Thumbs up again.
