Spring Will Come (# 3 In The Bregdan Chronicles Historical Fiction Romance Series)

Synopsis

Spring Will Come is the third book in the Bregdan Chronicles historical fiction series. As of today, there are 10 books in the series. Make sure you start reading with # 1 Storm Clouds Rolling In. It's readers like you who have turned the series into a world-wide best-seller. Thank you!

Book Description: As her beloved city of Richmond is transformed into a deadly Civil War battlefield, spirited Carrie Cromwell puts her medical skills to work in a Confederate hospital. While she fights to save unknown soldiers, the one she cares about the most is lost to her when Robert disappears in battle. She must also deal with a family secret that has finally come to light. Meanwhile, Rose and Moses have found freedom at last - only to be separated by war. Can Moses, now a Union spy, elude those who are searching for him as a runaway slave, and also help those he thought he would never see again? Rose, inspired by a revolutionary young speaker, becomes a teacher in the contraband camps. Everyone struggles to survive and live in a country that has exploded into Civil War.

This third book of The Bregdan Chronicles historical fiction series will pull you in and never let you go. You'll experience the Civil War era (and all the years to come) through the eyes of both White and Black, free & slave, Southern & Northern - and you'll fall in love with every character. How many books will be in the Bregdan Chronicles? No one knows yet! Ginny intends to write these character's stories, one year at a time, for as long as she is able to write. She is passionate about bringing history to life through historical fiction. Since she is amazingly healthy, that could be for a very long time! She doesn't like stories to end any more than you do. This one won't end for a very long time!

Review: The Bregdan Chronicles are the best historical fiction I have ever read. They will keep you captivated. The story plot is very well written. It makes the Civil War come alive through the lives of the characters in the story. I read for enjoyment, but I like to learn about history. I choose books that tell me something about the life and times of a certain era. I learned more from these Chronicles than I ever did in history class. Keep writing Ginny Dye. I love your books.

Review: I am on the fourth book in this series and I have loved them all. The rich history, the characters and the storyline are all wonderful! I really thought I would become tired of these chronicles, but I was wrong. I would recommend these books highly. If you are a fan of Civil War stories, a powerful love story and rich, descriptive prose, then you will enjoy the Bregdan Chronicles.

Review: I feel fortunate that I found this series: love it! Book 3 of the Ginny Dye Series Spring Will Come (#3 in the Bregdan Chronicles Historical Fiction) continues on with the war between the North & South. The destruction and the loss of life is horrendous and is hard to read. Unimaginable how much suffering went on for the troops. At the same time we follow the lives of the characters we've come to know. All their stories being played out in this period of time of

trying to survive. The war has caused them to learn lessons about themselves and how they interact with others. For some it is extremely hard to face what they learn. I highly recommend this series. The storyline is strong and not to be ignored. The characters are very easy to get attached to. Also, it's nice to know that there are so many books to read (thanks to Ginny Dye - many more to come). Start with her Book #1 and enjoy the experience. Would give her 10 stars if it were possible.

As with the first two books in this series, the writer keeps you captivated. I have hardly finished one volume before I am looking forward to the next in the series. The Civil War history as portrayed is educational (and from what I can tell, fairly accurate), and I feel I've learned a lot more about the Civil War than I ever did in history classes. This story is told mostly through a few different Southerner's eyes, along with a few Northern characters who are very important to the whole story. The balance created by their interactions with each other is a delicate one, since feelings over the issues of slavery, race/prejudice and women's' rights are very complicated, but the author has accomplished it very well. I'm only giving this series a 4 because (1) so far, in the third year of the

war, the reasons for the changing attitudes of some of the characters seem contrived and not very realistic, and she depends a lot on fairly unlikely "coincidences"

I have come to really enjoy this series. Since it is based in the history of the American Civil War, there is a fair amount of predictability in the plot, but I must give Ms. Dye kudos for her research. I'm not a civil war historian by any means, but I've visited a number of sites, read a couple of books, and yes, watched the Ken Burns series. Those things I remember are handled appropriately, and those that are "new to me" ring quite true. These are not highbrow literature, but are enjoyable reads, you get to care about the characters, and wonder what will happen to them in the historical events you know are yet to come. My one wish is that Ms. Dye had not used a Gaelic term like "bregdan" to name her series. Because it is being advertised in certain quarters as a good series to read while you are waiting for another giant "Outlander" book, I hesitated to start the series because, been there, done that. I thought this was another Scottish saga. I only started it because I got a kindle special on the first volume, and am glad that I did.

This is book 3 in the series for me and I never want them to end. They are fabulous. Ginnys development of each character in this series just leaves you feeling as if you know them yourself and miss them when you don't hear about them for several chapters. She has captured the center of Gods love for all who read these. I dont know how any one could read these and books and not come away with a renewed faith in his love and care for us all. Thank you Ginny!

I cannot recall the last time I had such an emotional reaction to passages in a book! And it has happened over and over in this book! Maybe not close to tears, but definitely choked up, sometimes sadness, but more often joy! I have really become interested and involved in the lives of these characters and care about what is happening to them and their contemporaries. I think the last time that happened was "Pillars of the Earth!" Beside getting involved in the lives of the main characters you will learn a lot about what life must have been like for ordinary people during the Civil

War. Although Ms. Dye does an excellent job of weaving subtle recaps of the previous books seamlessly into her narrative, I recommend that you start at the beginning, and let her draw you into the lives of these people! Trust me, it will be worth it!

I notice, as I am looking at the reviews for "Spring Will Come", that the most recent review was submitted 3 years ago. Where have I been? I have a friend in Kentucky (I live in Utah), and we have been studying American history together, as he is in the midst of writing a historical novel himself. When I came across this series of books on the Civil War, I knew we had to read them....but we are not reading them as most people who live nearly over 2,000 miles apart would, we read them together via cell phone, out loud to each other, as much as we can on any given day. We have become the characters in the story, using voices we think would fit the character we are reading "for". He reads the male characters and I, the female. Ginny Dye is an amazing writer and we have fallen in love with the characters, as well as her skills as a writer. It is a unique book club we have developed, and want to thank you, Ginny for sharing your talents and insights with us. I recommend these books to anyone who is fascinated with the history of our nation, and I would also recommend finding a reading partner to read out loud with...it makes for a much more enriching experience.
