Beekeeping For Dummies (For Dummies (Lifestyle))

Synopsis

Everything you need to 'bee' a successful backyard beekeeper If you've ever thought about becoming a backyard beekeeper—or have already tried a hand at it and want to be better one—then this is the book for you! In *Beekeeping for Dummies*, 4th Edition you'll find everything you need to know in order to start your own colony, including how to assemble and maintain beehives, handle every phase of honey production, purchase and use all the latest tools, and what to do beyond your first season. This hands-on guide provides all the tools, tips, tricks, and techniques needed to become a real backyard beekeeper. You'll learn to identify the queen from her workers and drones, properly open and close the hive, distinguish one type of honey from another, and preserve your colony if disaster should strike. Keep bees on a small urban rooftop or in a large country yard Assemble your own hive and sustain it for years to come Safely inspect and manage your colony Harvest and sell your own honey Becoming a backyard beekeeper isn't as hard as people think—and with this hands-on guide, you'll be able to create one honey of a colony that will have the neighbors buzzing.

- Acquire bees and install them safely
- Learn when and how to inspect your bees
- Identify and fix common problems
- Save using enclosed coupons for beekeeping supplies

Howland Blackiston has been a backyard beekeeper since 1984. He's written many articles on beekeeping and appeared on dozens of television and radio programs. He is also the author of *Building Beehives For Dummies*, which provides detailed instructions on how to build hives from scratch.

Jumped right into it, I love instructional books that written in a personable manner. Already enjoying learning about "my girls", good references are included, which tells me about the sincerity of the author.

Great experience. Book was on perfect condition, exactly as advertised! Would use this seller again. The book is clear, interesting, and quite informative.

A fantastic book for the aspiring beekeeper. It has been a pleasure to read and I will always use in the future as a reference.

I've read cover to cover. If you're a new bee keeper, don't be a Dummie, buy this book.

Take it from a Dummy this book is great and covers everything.

A must have for anyone thinking of becoming a beekeeper

Outstanding book. I knew very little about bee keeping before I read this book now is a different story. Learned lots and I'm learning more everyday. Read it cover to cover. Then you can go back to the items you need more info.

Great book for the new bee keeper like me. Lots of info and easy to understand. Just ordered his

building beehives for dummies.
