Women's Life In Greece And Rome: A Source Book In Translation

Synopsis

Now in its fourth edition, this highly acclaimed sourcebook examines the public and private lives and legal status of Greek and Roman women. The texts represent women of all social classes, from public figures remembered for their deeds (or misdeeds), to priestesses, poets, and intellectuals, to working women, such as musicians, wet nurses, and prostitutes, to homemakers. The editors have selected texts from hard-to-find sources, such as inscriptions, papyri, and medical treatises, many of which have not previously been translated into English. The resulting compilation is both an invaluable aid to research and a clear guide through this complex subject. Building on the third edition's appendix of updates, the fourth adds many new and unusual texts and images, as well as such student-friendly features as a map and chapter overviews. Many notes and explanations have been revised with the non-classicist in mind.

Customer Reviews

"This pioneering collection has been updated with new materials, new translations, and a wealth of references to further reading. It demands to be used not only in gender and women's studies courses but in every ancient history and civilization class." (Emma Dench, Harvard University, author of *Romulus: Asylum: Roman Identities from the Age of Alexander to the Age of Hadrian*) "New documents, new translations, and new illustrations make this revised, fourth edition a richer and more illuminating resource." (Judith P. Hallett, University of Maryland, College Park, author of *Fathers and Daughters in Roman Society: Women and the Elite Family*) "The fourth

edition not only offers a wealth of new material, but new translations and illustrations. The book is also more user-friendly for students in important ways, with more comprehensive identifications of the sources in the table of contents and individual headings, and with notes at the end of each chapter. I look forward to using the textbook in my course." (K. Sara Myers, University of Virginia, author of *Ovid's Causes: Cosmogony and Aetiology in the Metamorphoses*) "Recommended." (Choice)

Mary R. Lefkowitz is the Andrew W. Mellon Professor in the Humanities, Emerita, at Wellesley College. She is the author of *Women in Greek Myth* and *Lives of the Greek Poets*. Maureen B. Fant studied classics and archaeology at the University of Michigan and is now a writer and editor living in Rome, Italy.

had some written notes in it but overall not bad

Excellent. A must read for women smart enough to know, that the doctrines in todays church world are leaving much to be desired, regarding women. Author has approached the topic very intelligently. Very well researched.

got this book for a class and ended up reading a majority of it on my own for pleasure. Not a chronological book, but one that references different topics throughout history (i.e. Slaves, goddesses etc..). Very informative and full of information.

A comprehensive and lucid gathering of the many varied sources about women surviving from Greek and Roman times.

good condition

Good condition!

Women's Life in Greece and Rome is a book about, you guessed it, women's lives in Greece and Rome. This was a required text for a Western Civilization I class, and it did its job informing me about the lives of women in Greece and Rome. This book largely consists of translations of source texts, with some analysis of their contents. It is neither too technical for a relative layman, nor too

watered down to be a good reference text in the future, so I'm going to keep it, rather than reselling. I would hazard a guess that if you're reading reviews of it, you're either very interested in the specific topic, or are required to read it for a class, so I can't imagine that what I have to say would have much effect, but here it goes: Women's Life in Greece and Rome covers its topic in depth to a degree that I don't imagine any other text in this area does. If you're interested in the subject matter, then this is the book for you.

From a very well known expert in the area of classics and women. Interesting for those interested in women studies and classics and history.
