Age Range: 1 - 4 years

Grade Level: Preschool and up

Customer Reviews

PreS-Loving mother/child embraces are counted, from one nuzzle-wuzzle wake-up hug to ten 'I love you...' good-night hugs. The baby's day also includes encouraging two 'Choo-choo! Open wide!' yummy hugs at breakfast, comforting 'I'll always catch you!' sliding hugs at the park, and so on. Each spread features the number word in lower-case letters, the numeral, and countable heart shapes. Katz's trademark round-headed characters are cheerful and exude warmth. The sunny pictures capture familiar activities, and a playful puppy is part of the scene. The collage, gouache, and colored-pencil illustrations have polka-dot and floral patterns that add visual interest. This book is great for interactive baby storytimes.-Linda Ludke, London Public Library, Ontario, Canada

PreS. Counting and hugging go arm in arm in this book full of baby love. "One nuzzle-wuzzle wake-up hug" shows Mom burying her face in the baby's pajama-clad body, while on the next page, Baby get a "yummy hug" as Mommy feeds her. She gets a "who made this mess laughing hug" after she has unrolled the toilet paper. Katz gets up close and personal in her illustrations, which always focus on the round-faced mother and baby. The colors are so bright, the shapes so simple, and the patterning so sweet that toddlers, the logical audience, will keep a close eye on the turning pages. And, of course, it would be hard for a mommy to read this without giving up a hug or two. Ilene CooperCopyright © American Library Association. Who doesn't like hugs from mommy? Hugs from any loved one, even. The author, Karen Katz, has written a book about love. Certainly about hugs, but that means love. A baby when it wakes up is usually greeted with a hug and some kisses, or many kisses, many hugs. And, on through the day, hugs and kisses are given by mommy, in this case. Hugs are one of the most enjoyable forms of life, and baby knows when he is hugged by his mommy that love shines through. During the day, you can count the hugs, and mommy hugs are particularly beautiful and meaningful. A child who is hugged will always remember the love that shines through. Have you been hugged by your mommy recently? Parents/teachers will enjoy reading the book to their children. Children will enjoy the soothing lying tone of voice that comes through when reading this book. The illustrations are lovely, vivid and colorful, and depict the day of hugs from mommy. Highly Recommended. prisrob 07-25-15

I had hoped we would love this book. "Where is Baby's Bellybutton" lift the flap boardbook from this author is a huge hit with my baby. Unfortunately my husband and I really dislike this book and the daddy version too. Our baby doesn't seem to care for it. It mixes numbers with daily activities like "5 mommy will fix it don't cry hugs" but that doesn't make much sense (why add counting to a book about hugs.) Some of these hugs don't make sense- "2 choo chop open wide yummy hugs"? "8 Who made this mess laughing hugs"? There are pages in the beginning and end that don't have pictures or words- that's fine in a regular picture book but you don't need to have that in a boardbook. The part my husband and I dislike the most is #10 in this book and the daddy book. Repeating "I love you" ten times on a page is just bad writing and no baby has the attention span for reading that. It's well made and colorful but we wouldn't recommend buying this.

We love reading this book together, but I have to say out of the Karen Katz books "Counting Kisses" is our favorite. I read it to my daughter who is now 2yrs old and we have been reading it for months every night before bed. Every page is a mom, dad, sister, or grandma, mostly mom kissing her little girl. They start from 10 and work their way to 1 last kiss. My daughter picks her foot up for me to kiss when they do it in the book and loves for me to kiss her belly when the grandma does that in the book. Its just a great book, this one is good too. I hug her and squeeze her while I read it to her.

Got this for my daughter. I liked the mom had dark hair and daughters was lighter (even if not blond).

Very cute book, loved reading it to my daughter. Durable enough for her to help turn pages. Nice colored illustration. I recieved this product at a discount for an honest and unbiased review.

Cute book. I was just expecting more for some reason. It's very very simple.

Cute little book. I read it to my daughter every night as part of her bedtime routine. My husband reads Daddy Hugs to her too. Love them!

The book Mommy Hugs is a cute counting book that identifies the different types of hugs mommies give to their little ones. A very cute book!
