Shipping Weight: 1.3 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 4 customer reviews

Best Sellers Rank: #827,016 in Books (See Top 100 in Books) #60 in [Books > Crafts, Hobbies & Home > Antiques & Collectibles > Antiques Care & Reference > Care & Restoration](#) #464 in [Books > Textbooks > Humanities > Library & Information Science](#) #858 in [Books > Politics & Social Sciences > Social Sciences > Library & Information Science > General](#)

Customer Reviews

Editors Banks and Pilette present 18 articles on major topics and concerns in library preservation today, including setting up a preservation program, building design and environment control, dealing with emergencies, providing security, funding preservation, and exhibition techniques. Particular chapters focus on the preservation needs of high-use, general, and special collections, respectively. Special attention is paid to concerns about library binding, preservation microfilming, preservation of formats other than paper, and preservation by digitization. This welcome addition to the literature of preservation was begun by Carolyn Harris, a leader in the field, and is published in her memory. Edward Swanson Copyright © American Library Association. I am still reading this book entitled, Preservation: Issues and Planning. So far it has met my expectations. The content is widespread, but also has depth. The Bibliographies at the end of each chapter are worth the price of the book. I can write a more complete review sometime in May when I will have had the time to read the entire volume.

Preservation Issues and Planning is an interesting book on preservation. It is guiding me through my course on Preservation issues. Thank you!

A good practical book

This book arrived faster than I could have imagined. So the supplier got on the ball and sent it ahead. The book arrived in almost perfect condition and this was according to the vender's description.
