I'm in the middle of this and I'm not getting much out of it, the grief scenarios are a little too specific to be a general-grief purpose read.

I cried every chapter because of other people's losses, and/or because of those where there is a

possible YET! It is a masterpiece of work in my humble viewpoint.

Great book

Well written book. Melody Beattie gave me lots to think about and gently urges the reader to read on. I would recommend this book.

I thought this was fantastic. I picked it up for the purpose of reading to understand others and to gain greater empathy of those that have suffered difficult and extensive challenges. It did exactly that. I learned and grew through a better understanding of how others had faced their challenges.

This book is comforting for those who are experiencing loss of any kind. There are short examples of different kinds of loss and the grief associated. The inspirational stories describe each person's journey of healing from their loss. I enjoy reading Melody Beattie she is insightful with a keen understanding of what people need to read/hear when they are experiencing grief.

From the very first moment that I held this book in my hand and opened it, I knew that I was traveling a good path of pages. Beattie has a voice that I needed to hear. She speaks from first-hand knowledge and that is so appreciated. Great product! Thanks, Keesha

I bought this book because I have been experiencing several losses. This author is very well known to me and I am familiar with her wisdom. She shared her own personal experiences and I found that I had a lot in common with her. Tears rolled down my eyes as I read certain passages. This book can be of help to anyone going through the loss of things like the death of a loved one, relationships, youth, grown children who move away and others. I highly recommend this book.
