this has to be one of my favorite books of all time. I got it for Christmas (along with a Michael's gift card) while flipping through it the first time, I realized that this book had fun and clever ideas for Adventure time crafts, all with detailed instructions, templates, illustrations, and even where to get the materials needed. So far I have done (all the crafts I have done out of this book have been a

success) The Tree Trunks Shoes, (at Michael's they didn't have canvas shoes so i chose a hat instead*) the finger puppets, the fuse bead coasters, and the Lemongrab UNWELCOME! Matl defiantly suggest this for an Adventure time fan wanting some craft fun! :)*(if you were wondering how I made the shoe idea into a hat, read the following sentences: I took a white hat and painted the actual cap bubblegum pink, and painted the bill lime green, I mixed the lime green with some white and painted over the lime green just enough so the sides were still the darker lime green. Next I painted the Tree Trunks face on the center of the Bill. Finally, I painted an Apple on the top on the cap, and (optional) I painted the strap on the back the lighter lime green. Well, that's at least how I did it. Took me 3 hours tops. :)

The first one I received was beat up! Which has nothing to do with the actual product. Just wanted to say replaced it unbelievably fast. Oh my glob...you guys, this book is epic! Many nifty little projects from the land of Ooo. It even has a refrence for people who don't know how to knit or crochet. It's a very thorough craft book. This would be a great gift for an Adventure time fan of any age! Some of the projects are quick some are more time consuming. None of them require anything you can't find at your local craft store. I promise you will love this.

Wow!!! If you like Adventure Time and crafts, you'll love this book! The variety of projects is really fun and inspiring. There are projects made by crochet, knitting, polymer clay, shrinky dinks, embroidery, sewing, painting, nail art, pom poms, felt, etc. Definitely an adventure time for multiple medium crafters! You know how some books only have one or two projects worth trying? Not this one! Personally, I don't see a dud in the bunch and can't wait to try them all. I am super happy I bought this book for my library!

not very good to be honest, i bought this for my girlfriend and her little girl, but most of them are just images of what you could do and not how to do it. If you like Adventure time im pretty sure u will do better searching for similar ideas on the web or pinterest to be honest

Really cute stuff in here! Most of the projects are simple enough for my 9 year old daughter to do on her own. My 6 year old son loves the book too, but needs Mom's help to complete some projects. All in all, a great buy - not your ordinary crafters book, and an awesome addition to any Adventure Time fan's library!

Fun crafting projects that are easy to follow. I spent an afternoon making projects with my sisters and mom. We had a lot of fun and are enjoying showing off our handiwork. Recommend this book to others looking for fun projects to do either solo or with friends and family.

My grand-daughter asked for it for Christmas. We completed one of the projects on New Year's Eve. We both had a wonderful time. Can't wait for the next 'sleep over'.

You can find most of the crafts in this book online, but I love Adventure Time- it's a nice looking book and it goes nicely with my collection of AT books and things.
