Customer Reviews

I have used both volume 1 and volume 2 for years, both for myself and for my students. I am delighted to find both Volumes in one book. The CD accompaniment is useful for those who don't read music flawlessly, or who don't play the piano. Just remember that as the singer, you are not in charge of the tempi or phrasing that you would be in a live performance. I bought this in all of the different keys available, for use with my students who sing in different ranges, and most songs work in all of the keys supplied.

Worth it, the online piano accompaniment makes it easier to practice at home. Fun songs, of course.

Love the score. Perfect for my voice range. Although the copy I bought was advertised "new," it was not. A name was written in the front, markings were on the score, and the CD had been torn out and taped by in.

Great set of songs, good for all voices!

I enjoy performance and this is on my list for myself and students

Excellent sets!!
