Rumi Oracle: An Invitation Into The Heart Of The Divine

Synopsis

Rumi speaks a sacred language that we understand with our hearts rather than our minds. He knows the heart is the gateway to divine union and he doesn't want you to play small this lifetime. He encourages humanity to live and love with absolute surrender, abandon and willingness to accept the mysteries of life. Whether you have studied his poetry for years or are drawn to him only now, this oracle deck will strengthen and illuminate your connection with this beautiful and powerful soul who loves you with a fierce passion. Rumi has a heart so open that the entire world that he loves so dearly can easily be held within it. His is a path of love. To dance in divine love with him, you need only be willing to enter your own heart. May the blessings of this spiritual brother lead you into the bliss of your own divine heart-centred nature.

These cards are DEEP! They are not for the faint of heart or for people who do not understand the esoteric meanings behind them. I did find them to be spot on for my personal readings. One of the cards made me burst into tears because it stated exactly what I was feeling at that moment with such warmth and understanding and love. The artwork is beautiful! I do find that when reading for myself I don't mind the length of Alana's writings, but I wish it could be condensed just a bit when reading for others. Some of her writing in the guidebook goes on for 4 pages. Many of them reference other cards you may have pulled, but honestly I only have time to pull one because the writing is so intensive. I would recommend them for personal use. I think the price went down after I bought them, so they really are a great buy now!

I absolutely LOVE these cards! If you believe you are a twin flame and are not yet in union, I highly recommend these cards. I recently started learning about twin flames about 3 weeks ago and I realized that I am one. I believe I met my twin flame in April of this year (but we are not together at this time). So 3 weeks ago, I learned about the twin flame stuff and it has changed my life. I would have totally just threw my hands up with this guy, ran away, and would have continued my same pattern with future guys. However, I realize this is different and I need to work on myself spiritually/emotionally. So I had already been doing that a lot but learning this took it to a new level except I was still like a newborn baby regarding twin flame stuff. Then these cards came into my life. Every day I pull at least one and whatever is pulled resonates SO well with what I'm dealing with that particular day. I feel so connected to these cards. I've had a few really hard days and these cards help pull me out of my hot mess self...and help me gain perspective which I think is the biggest help. So if you believe you are a twin flame, I'd definitely recommend these cards. They help you get through what we specifically are going through and help you keep the faith and not give up.

This deck is phenomenal. The messages are so resonant and being so much depth to the experience. The art work on the cards is just exquisite. And the energy of the deck altogether is amazing and celestial. It is my favorite. Best gift I have ever received.

I love this deck. The art is beautiful, beautiful, beautiful. Big sweeping arcs of color, women wrapped in light, still monochromatic landscapes where human figures stand quietly. What I like best about the art is that it's not too representative--kind of like picking shapes out of clouds, if you get my meaning. Some decks make the mistake of being too detailed or literal. This one, not so much.

Plenty to look at, many different applications for a single card. The box is durable and beautiful to look at--one of the few boxes I've been able to keep without beating to death. The cards themselves are high quality and probably the nicest ones I own. Thick, thick cardstock, about as long and as wide as your hand. Very pleasant to hold and shuffle. I own some cards that are so thin that I'm afraid to shuffle them. These you could throw at a guy and cut him in half. If there's one thing I dislike about the deck, it's this: Rumi is divorced from his cultural, historical, and religious context here, and sometimes I'm not sure if the author really even knows what he's saying. It's not to say you won't be able to consider your situations in new ways, or use the spiritual exercises, but sometimes the commentary seems off the mark. In any case, highly recommended, very enjoyable set.

These cards came into my life at the exact moment I needed them. I only pull a single card for readings as the text that accompanies them is quite extensive in conveying the deeper meaning behind the beautiful artwork. Couldn't imagine doing a 3+ card spread with these. In the end it's all about love, that's all you really need to guide you to total awareness and understanding and these cards keep you in that vibe.

Great!! Awesome!! I really am a student and fan of Rumi. This deck is amazing and I totally feel connected to it. A lot of people may complain that each card has more than a paragraph of reading to it in the book, but I find that very helpful because the large amount of info allows you to get a theme of full feedback and you can take whatever resonates with you in the words she has beautifully written. The prayers are also a wonderful addition and really helps one understand what they need to do. The only thing I suggest is putting a sticker on top of the name "al-uzza," to cover it, which is the name of one of the cards. Apparently Rumi did not like that name if you read about Islamic history. But the fact that it's referring to a star is fine. I almost felt kind of weird while seeing that name so I just covered it with a heart sticker. It might not matter, but I just felt more comfortable after.

Wow! I just did my first reading with these cards this morning and it was so on the mark that it moved me to tears. I stumbled on these cards and felt an instant tug towards them, so I knew I should order them. The artwork is beautiful, and the messages given are full of spirit and depth. It was so easy for me to interpret the reading just by looking at the image itself. I can't wait to continue working with these!

This Rumi Oracle Tarot Cards deck is the best! Not only you are given the Rumi's brilliant poetry, but also: heartfelt philosophical dissection of your mental and emotional state, guidance throughout the physical and the eternal, past and present, but also steps to direct you through the coming situation. All brilliantly written by Alana Fairchild with so much compassion, care and wisdom! The Best! A whole new world, much better than any psychotherapy or psychoanalysis tool!
