Really well written and detailed book. The mailman bent mine but it's not damaged. I can't wait to start drawing again!

A lovely book detailing steps for the artist/art student to produce realistic graphite, charcoal, pastel or prismacolor pencil drawings. The illustrations and examples are in black and white.

I have always loved drawing birds. This gave me some good tips.

VERY WELL DONE AND EASY TO FOLLOW.

Excellent book for starting to draw birds. Gives detailed suggestions on what type of pencil to use for different parts of the bird's body feathers. Should be "relatively" easy to apply to other birds. I gave it 4 stars because I anticipated that it would cover more birds. I should be able to go on from here.

I love this book, although it has rather large dimensions. The drawing are just beautiful, wonderful

attention to detail.

Great how to book. Shows how to get started and the correct structure of a bird. It's a keeper.

Great book. Would recommend.
