I got this book used to give me ideas on how to pick mediums to mix with oils and acrylics. I think it is a great book to give a young adult to introduce them to different ways of making art. I found some answers on the internet, but not conclusive. I was given a kit that contained both acrylic and oils. I

do not know what to do. What do I mix with the paints, how do I clean brushes? Non-toxic ways. Good book, just not what I was looking for. If you are ever curious about any type of art, it may just be in this book. This book is a good value.

Fast shipping and book is nice.
