Self-taught artist John Wik is a graphic designer and a maker of jewelry.

This is a coloring book filled with 31 interesting patterns with a mandalas type vibe. The artist involved with this book, John Wik, has done several other Creative Haven books on tessellations and other geometric shapes. While some of his previous books have been reprints, this one does not appear to be one. I don't own any of his other books, so this one is, at the very least, new to me. The shapes are very interesting and call for lots of color. There are 31 designs in this coloring book which are printed on bright white perforated paper that is a fairly heavy stock. The designs are printed on one side of the page only. I usually like to remove my projects from the books to work on and I love that Creative Haven always makes it easy for me to do so. All of my gel pens and markers

bleed through on Creative Haven books to varying degrees. I use chip board, cardstock, or freezer paper in between the sheets (if I am keeping it in the book) or under the page if I remove it from the book.

This is the fourth coloring book I have purchase from the Creative Haven line. I have been very pleased with each and every one of them. The thing I like best is that the pages are perforated. This makes them easier to color because you don't have to try to color in the curve of the book. It also makes it easy for two people to color pages from the same book (my grandson loves to color with me). This book is especially intriguing as the images really do appear to be 3 dimensional.

This coloring book is AWESOME!! highly recommend markers for this one!The designs are so fun looking and each page has a border around it so it's easy to color! There is decent variety, Microporforated pages!High quality paper! This is a great book!The lines are also strong and bold!These would look awesome if you shaded them.The quality you'd expect from a Creative haven book, Great price,

Bought three coloring books for the staff I work with at the hospital for Christmas. We work in a high stress area but during the down time we often have little to do. All RN's, we have many hobbies we would LIKE to do...knitting, sewing, the like but for whatever reason they are frowned upon. SO, I took a chance and bought these for STRESS RELIEF. I was a bit nervous wondering the reception but WOW was I surprised!Even the Doctors waited their turn, now no one minds being on call for the chance to "color" in peace.We have plans to hang our ART in the room as if we are preschoolers as we finish the pictures. Everyone loved the idea, SOME of the nurses had t be spoken to about hoarding the pencils.....

Enjoyed this coloring book a bit mroe then others I ordered recently. I like that the designs are not incredibly intricate and there is room for shading and not as much eye stress for us "older folk" Would recommend it just for comfortable fun

As usual Creative Haven does not disappoint me! This book is a lot of fun as anything can be accomplished color wise with these drawings! Having lots of fun deciding what approach to take with each new page. Heavy nice paper, perforated pages with drawings one sided, all sorts of unique designs to color as your heart wishes.

The pages are perforated for easy removal. Nice pictures with thick paper. 30 pages, pictures cover the majority of the page and all are one sided. Can readily use markers/gel pens/water color pencils & regular color pencils on these. I highly recommend Creative Haven books.

I liked this book a great deal. I like abstract coloring pages and I like having a book with lines thick enough to prevent bleeding to the next space when using markers. The larger spaces are easy on the eyes but they don't get boring for me at all. Gel pens, markers and pencils all work nicely.
