Alfred's Group Piano For Adults: Student Book 2, 2nd Edition (Book & CD-ROM)

Synopsis

The Second Edition of Alfred's Group Piano for Adults, Book 2 includes updates inspired by numerous recommendations from group piano teachers and students. This book includes a CD-ROM containing both Audio and General MIDI Files of the 500+ accompaniments included in the text, each with an interesting and engaging arrangement coupled with the piano part. Designed for collegiate non-keyboard music majors with little or no keyboard experience, the easy-to-use text contains 26 units, each intended to be covered in one week, thus fulfilling two semesters or three quarters of study. Theory, technique, sight-reading, repertoire, harmonization, improvisation, and ensemble activities are taught thoroughly and consistently throughout the text. The comb binding creates a lay-flat book that is perfect for study and performance. Book 2 is 408 pages.

Customer Reviews

Great book, the only reason I gave it four stars is because of the stupid comb spine. It breaks really easily and is overall a bad design for a book. I know this because I had Alfred's Book 1 and it broke very quickly and easily. I'm sure Book 2 is going to break down soon with wear and tear. However the book is a very good instructional guide, and I was required to have it for my Keyboard 3 class for music majors. The price was much better here than at the bookstore in my school. Great sequel to book 1.

I have been very pleased with this series of piano books for adults learning to play the piano. There

are a wide array of exercises including accompanying, sight reading, solo pieces, technical exercises, etc. There is enough variety in the music choices to please just about everyone. I've enjoyed just flipping to something that hasn't been assigned and finding something I was interested in learning.

Super price versus college bookstore price. Whatever I save ordering textbooks on goes into my daughter's mad money!

great book but its just too heavy and you only use a couple pages every class but you are forced to carry around this huge and heavy book

I realised I don't like the piano.

This book is great. Was in fantastic condition upon delivery and was exactly what I needed for school.

Bought this book for classroom instruction. It is a very comprehensive book and I am satisfied. Very good book quality.

Use this book in piano class as an addition to the lecture and keyboard instruction. If I were learning without a teacher, this would not be my first choice. As a piano student, the Alfred Group 1 & 2 cover all the basic things you need to know from fingering to arpeggio's, progressions, etc.
