Customer Reviews

Gave to my son for a little gift. He was making planes for weeks. Good quality fun book.

This book has the best planes I have ever flown. The instructions are clear, and easy to follow. There are a few errors. Like in the long distance glider, in step 2A, you will end up with two tabs on the end of the wings. And on the simple stunt plane, you start with the corners folded in, like a traditional dart, not base fold one. I can't wait to get the other books!

I was looking for a good paper airplane book for my son and he absolutely loves it. It has basic designs all the way to super advanced. The directions are well done.

The directions are not that clear especially for my 10 year old.

I enjoyed the book. I made my best paper plane so far. The kids enjoyed it too. We had great fun.

Easy to understand, and good results. I recommend

THIS IS A GREAT BOOK, ONE OF THOSE TO KEEP IN YOUR TABLET, TOO EXPENSIVE TO HAVE ON PAPER COPY

This book is the best book I could get! It has easy-to-use instructions. Although I can't understand some of the folds, I would understand sometime the instructions and folds. All in all, it's a great book. Isaiah Austin
