The book is fine, but be careful. I bought this book for a class that uses the exact book, however the *myspanishlab* section is specific to our school so this code will not work for that course and I had to buy a separate code.

Only the 1st of three Volumes. Which I knew buying it, It's just a ridiculously high price for a textbook on something that has stayed relatively the same for hundreds of years.

\$80 for the first 5 chapters? I ordered this and when it arrived, it wasn't even the whole book. Nor did it clearly say anywhere in the item description that the book I purchased would literally be only 1/3 of the actual text book (chapters 1-5 of a 15 chapter book). Total rip off.

I got screwed no access card.

The access code worked for me and the book is in great condition.

Not only did I not receive the full version with chapters 6-15, I also did not receive an access code even though it was stated in the description. Very disappointed with the customer quality.

Just what I needed!
