Train's Clash: Last Riders Series, Book 9

Synopsis

Beware of what you wish for; it might just come true. Train swore never to let a woman get under his skin unless it meant forever, and forever only meant belonging to the Last Riders. He had believed his one brief sexual encounter with Killyama was a "hit it and quit it". Instead her green eyes haunted his memories. Then, when he tried to convince the woman he was serious as his "more the merrier" lifestyle became a painful reminder of the life he lived, Killyama used his own club against him to keep him from what he wanted. Killyama was holding out for a man who could offer her forever, and Train wasn't the forever kind of man. He was a Mr. Here and Now, the wicked warrior in her dreams. He might be a walking, talking sex machine, but she needed more than that. So, until he proved she was the only one sharing his bed, the only part of her body he was going to see was her ass walking away.

Book Information

Audible Audio Edition

Listening Length: 12 hours 28 minutes

Program Type: Audiobook

Version: Unabridged

Best Sellers Rank: #42 in Books > Audible Audiobooks > Fiction & Literature > Erotica #1249 in Books > Literature & Fiction > Erotica #22018 in Books > Romance

Customer Reviews

Omg I was not prepared for how fantastic this book would be. Don't get me wrong I love all of Jamie Begley's books but this one was above and beyond fantastic. I could not put it down!!!! Read all day!!! I got nothing done that needs to get done at my house because I could not stop reading this book. I loved both of these characters. Train was so great. I think he may be in a tie with Shade.(I can't believe I am saying that because no book guy has ever come close to Shade!!). And Killyama, I have never loved a book heroine like I love her. She is the total badass book Goddess. She is so strong yet so soft!!! Loved her. Usually I get mad at the girls at some point I never felt that with her at all. This book had it all.You have out done yourself Jamie Begley!! This is a must read. Loved it

from page one !! Did not want it to end!! Can't wait for the next one!!

I was so not sure about buying this book due to the disappointment caused by Winter and Viper's last book. I was ready to say goodbye to Jaime Begley, especially at \$5.99 a pop. I started reading Train's story, and about 10-15% into it, I wanted to throw it out the window. I bitched to myself as well as a couple of friends about how much I hated Train. And then, the more I read, I started falling in love with Train. Who would've thunk it???? Not me, that's for sure. Both Train and Killyama are awesome, solid characters. I loved their story and was not ready for it to end. Although, I do have to admit that I was a little disappointed that Killyama ended up being ok with being shared by Train with his buddy. Out of all of them, my money was on her that she would put her foot down and just say NO, I will NOT share!! But eh, she went with it. There are tons of surprises in this book. The biggest one of them all blew me away, even though I did kinda, sorta guessed what it was about when I was about a quarter into it. I think I just lucked out with my guess though, cause it's a big one. BIG!!!!P.S. The damn club bunnies, Sasha and Stori, must die. I don't want to read about them anymore, and, God forbid, I don't want to read books about them. I just HATE them. I had to get that off my chest.

It's hard to write a review about this book without spoilers but I will. In short, I will say that I've read all the books up to this one and loved them (except Winter's second book where Winter was portrayed as the ultimate insecure woman-yuck! WTF Ms. Begley?!? And what sane woman pushes for a pregnancy that she and/or her baby might not survive? Being a mother means it's not about you and your pregnancy experience! It's supposed to be about your kid. Ugh. Skip that book). Train came through this book looking better than ever. But Killyama... I honestly loved her in every other book but HATED her in this one. She got the prerequisite tragic backstory which was well written but she was so freaking selfish I couldn't stand her by the end. She was selfish and cruel and pathetic to poor Train. He deserves better than to just wait for her to grow up. She's not 22, she's in her early 30s right? Where's her maturity? At the end, when did she ever think about how her decisions affected/hurted Train? It was all about her. I'm hoping that in her next book she'll go back to strong female leads without the selfish/cruel streak. I miss them.

I normally don't give books I've finished reading a one-star review, but this was bad. I'm going to stand by my original thought that Begley didn't write this book. Either that or she's churning out mediocre drivel to meet a commitment. One of the main reasons I say this is because for the

preceding 8 books I've had to read the same description of the Last Riders' tattoos. Not in this one. I don't have the greatest opinion of these books to begin with, but I fully admit to them being a shameless guilty pleasure. That being said, I don't expect much from them, but I had higher expectations (on the low expectation spectrum) for this book. Train and Kilyama have been eluded to throughout the series and I was actually looking forward to seeing how their relationship developed. This book was a total disappointment. The character development was bad, the back story was lame and Kilyama was a whiny cow. And let's not forget the sex, because that's why we read these stupid things. The love/sex/whatever scenes in this book were sooo badly written. (Another reason why I don't think Begley wrote it) Gah! So annoyed. Two of the most entertaining characters in the series were cannibalized into a big pile of 'meh'. Another thing that truly disappointed me was the editing. Was it? The grammatical errors and nonsense that constituted sentences were awful. This book was an assault on the English language. Again, the caliber of these books is not great, but the writing, flow and thought organization of the preceding books far exceeds the steaming pile of poo this book was. It was a frustrating read on so many levels. It sucks to be disappointed so badly when I went into it with low expectations to begin with. Bad, bad, bad. Just walk away!

There are few authors who are automatic buys for me. Not much more than can be said about how fantastic this series is. Considering how high her fans expectations are this author continues to deliver fun and unexpected story lines. I loved loved Train and got to understand Killy a little better. Very well done Ms. Begley. I understand some people wanted Killy to be X or Train to be Y-- they have to be who they are in Ms. Begley's world and that is okay with me. At the end the MC she has built is based on brotherhood and being there for each other-- the woman they are with fundamentally understand that and wanting them to cut ties with the Last Riders would be out of character for them. See what happened to Lucky--- I like that Ms. Begley's heroines get that.
