Customer Reviews

I found this book incredibly difficult to read due to poor syntax. The ideas, whilst compelling, have been thrown together in a mish-mash. The dissertation on NLP lacked credibility and the rest of the book is basically a regurgitated version of Robert Cialdini's ground-breaking ideas on persuasion, blended with a number of cognitive biases. I guess imitation is the greatest form of flattery. Not recommended.

A well balanced book, although I disagree with some points. A lot of important information gathered in this book. I was actually impressed by how much useful information is squeezed in such a short book. Author has described every single thing very clearly with some proper explanations. Highly recommended.

I don't want to manipulate people because I don't want to be manipulated also. But Learning this, can make me aware of what dark psychology is all about. Reading this book makes my day productive. I am not going to manipulate others but I like this book.

After reading this book, I immediately get the entire methodology used by the greatest psychology experts to control minds, behaviors and actions. It is easily learned and applied these techniques in our own business, career or social life. It's time to get what we want and deserve as we conquer the world with this book.

Such an impressive book about dark psychology. Actually this is my very first time that I read this kind of book and I was so impressed on how it was written. Recommended.

This book was an interesting read. From someone that went to school to study Psychology I

definitely thought that the author hit on some interesting concepts to understand the human mind, but I did not agree on every aspect of this book. This is an interesting way to get people to try and understand how to understand people. I was an easy read that was definitely worth it.

This book gives a series of ideas, strategies, and techniques that you can use immediately to control people's minds. A very awesome book that guides you to take action, easy steps to follow and a very light writing style. I'm very satisfied with its content. A book full of exciting selling points.

Powerful book! A lot of wisdom in it. After have read it I feel that we humans seem a bit mysterious. Thanks
