As an artist, color is a thing of magic in my life. Color creates shapes, forms, and feelings in the artworks I paint. Laying color onto a blank page is when I feel closest to true magic, when I feel

happiest and most relaxed, and it's through what I create that I share my love of magic with the world. Through my coloring books I want to share that same magic with you. The artworks in my books are based on my completed paintings, which I have painted over the last ten years as a professional artist. I have created the coloring designs to be intricate and detailed but still fun and accessible. There is something for lovers of meditative detail while simple enough to not be overwhelming for younger colorists. When designing my books I decided to print them with two copies of each design, because I know as an artist there are always so many possibilities! I wanted to give everybody the chance of a do-over with every design. Try a different medium, or a different colour scheme. Or a chance to share the magic with a friend, child, parent, sibling. Because sharing your creativity and joy of color is the best magic of all.

“Mythical Mermaids” the latest fantasy coloring book by Selina Fenech. She is one of my favorite fantasy designers and this is my first book by her that is devoted to mermaids (though she does have an earlier coloring book with a similar subject.) The designs are of primarily mermaids though there are some mermen and a man or two who has been saved from a watery grave by a beautiful mermaid. Some of the designs include more than one mermaid but most of them focus on a single beautiful female. Once again with Ms. Fenech's books, I'm really happy that the book contains two of each design because it gives me the opportunity to explore each in different colorways. I generally go towards light and clean looking lines in my coloring but having a second copy of each design gives me an opportunity to try different techniques and darker colors and heavier shading. The mermaids are all gorgeous, of course. There is a hint of nudity but all of the female parts are well covered by hair and whatnot. The mermen are without shirts but that doesn't really matter in any case. There are no children in this book and most of the poses are highly romanticized while stressing the female form of the subject. For my first two projects, I chose to use alcohol-based markers. I have been using pencils to shade but for these two, I tried using my markers for shading as well. I will provide a more detailed description of the physical book below but here is a quick overview of what I found:

- 25 x 2 Mermaid Fantasy Designs
- Printed on one side of page
- Paper is white, thin, slightly rough (tooth) and non-perforated
- Designs do not merge into the binding and there is plenty of room to remove pages if you wish to do so.
- Glue Binding
- Alcohol and water-based markers bleed through the paper (though water-based is more spotty compared to alcohol-based)
- India ink pens and gel pens leave shadows on color on back of the page. Gel pens left dents on the back of the page.
- Coloring Pencils work well with this paper. I was able to put down good color, layer, and blend well with both wax and oil based pencils. Hard lead left dents on the

back of the page. I recommend a blotter page below your working page to keep ink and dents from marring the page below. The artist has placed a "frame" around the majority of the designs in this coloring book. There are three that do not have the lines but for the most part have finished elements on the outer edges of the design. I really appreciate when an artist includes this thoughtful touch. It makes it easier for me to complete the project with a finished look and saves me time, trouble, and especially ink.

Got this and another for friend's daughter for birthday gifts. She loves mermaids so this will be perfect. Has repeat designs but that's ok because she can share them with co-workers or friends or try out different color schemes. Nice drawings but not too busy so they're great for killing an hour or two

beautiful artwork! I'm a huge fan of coloring people ect as an adult its hard to find coloring books that are not flowers and abstract swirls ect. I have already bought 2 more books from selina fenech and i cant wait to color in them too!

Such beautiful drawings. I loved the coloring book and I am having a blast with it. I just came a fan of yours Selina! I plan on getting some more of your color books. Can you do enchanted unicorns, horses, and some magical with wings too?

I really have enjoyed this book. The pictures are nice to look at and easily colored. I have spent hours relaxing and enjoying this book. The thing I don't like about it, is that the pictures are doubled. I would have preferred different pictures to color throughout the whole book.

I purchased this coloring book a couple months back and it's almost filled. Having as many coloring books as I do and have been coloring for several years now, this is the only one that I have enjoyed so much that I'm planning on purchasing the rest of her books. Beautiful pictures to color providing hours of enjoyment.

Selina is seriously my favorite artist when it comes to coloring books. Just amazing! It's so hard to choose which page to start on and I'm so glad there are two pages for each! I liked how in this book she has named a lot of the pictures, I know she bases most (if not all) on finished art that she does. I haven't tried a greyscale book of hers (or anyone's) yet but I hope my shading is decent enough - I

do try a little. I just love these mermaids!!!! Wonderful :) (attached is a picture I started tonight after days of not being able to decide on a page and giving up instead of just picking one)

Selina Fenech is my faverate coloring book artist. This book includes doubles of all the art which I really love.
