Age Range: 2 - 5 years

Grade Level: Preschool - Kindergarten

## Customer Reviews

So for our son, who has Autism among other things, trying to get him to actually sit for a book that wasn't one of the books being read to him before around 15 months, is brutally difficult. Because as far as he's concerned, that's his Canon of literature and no other books need apply. I have books I've been trying for the past 2 years to get him to sit through with absolutely zero luck. This book is one of the rare exceptions we've been able to get him to tolerate in that way (and I've been trying for months at that as it is!). I think what made that possible is that he actually likes season one of Daniel Tiger, and because this book parallels what he saw on the shows, it seemed more familiar to him, and allowed him to slowly be stretched into allowing it onto his list of tolerated and accepted texts. So for me, a huge selling point of this book is how closely it follows the show. I also really like that it

has two different text boxes...one with a more wordy plot line you can read, and one box that's just a brief one-liner. So we were able to start out with the one-liner and move our way up...I totally love that as a feature, it's great for kids who might struggle with maintaining attention on something less desirable to them.

My daughter likes this book so much that she chews on it! :-) But yeah, you have to get over the fact that they just took still images from the actual episodes and added a few lines of text. Good enough for small children.

I like this but the book so much! Yet, it came bent...instead of being flat, it was curved so it doesn't sit flat on a flat surface. I think it's the manufacturing because the packaging was very protected with bubble paper, still works and not worth the hassle for a return so we kept it :)

Daniel Tiger books are always good: well-made, colorful, with a good message.

For preschoolers who love Daniel Tiger this is a wonderful title

Daniel Tiger is my 18 mo grand daughter's favorite. She is only allowed 30 min of TV a day and Daniel is her choice. The books are great so we can read and talk about the characters after the TV show. The lessons are based on Mr. Rodgers Neighborhood. Not only do they teach children, but also adults. They teach adults how to talk to children in a respectful and understanding way. This is a nice board book with great pictures. It has some pages with very simple text at the bottom & more complex text on the top. Adds to the length of time the book can be useful for young kids.

Very happy with product. Quick delivery.

Seriously, we have given 3 of these as gifts and have one for our 2 year old. A toddler who likes the show goes crazy for this book like a tween for Taylor Swift. The wheels move people! We get pictures from the recipients parents of them going around the room saying 'Ding Ding!'
