# The Andy Cohen Diaries: A Deep Look At A Shallow Year

## Synopsis

A year in the whirlwind life of the beloved pop icon Andy Cohen, in his own cheeky, candid, and irreverent words. As a TV producer and host of the smash late-night show *Watch What Happens Live*, Andy Cohen has a front row seat to an exciting world not many get to see. In this dishy, detailed diary of one year in his life, Andy goes out on the town, drops names, hosts a ton of shows, becomes codependent with *Real Housewives*, makes trouble, calls his mom, drops some more names, and, while searching for love, finds it with a dog. We learn everything from which celebrity peed in her WWHL dressing room to which Housewives are causing trouble and how. Nothing is off limits - including dating. We see Andy at home and with close friends and family (including his beloved and unforgettable mom). Throughout, Andy tells us not only what goes down, but exactly what he thinks about it. Inspired by the diaries of another celebrity-obsessed Andy (Warhol), this honest, irreverent, and laugh-out-loud funny book is a one-of-a-kind account of the whos and whats of pop culture in the 21st century.

ASIN: B00MQ5EAYY

Best Sellers Rank: #6 in Books > Audible Audiobooks > Arts & Entertainment > Art #25 in Books > Humor & Entertainment > Television > History & Criticism #45 in Books > Audible Audiobooks > Arts & Entertainment > Performing Arts

## Customer Reviews

Andy Cohen's first book made me love him, but this actually proved to do the opposite. The title is correct. It is incredibly shallow. However, there was no "Deep Look". The only good parts of the book centered around his dog and his mom. It is hard to hear someone of his status lamenting over trivial things occurring around him and other famous people. Save your money.

I love Andy Cohen; and love Watch What Happens Live-----but this is one of the singularly most boring books ever written! It's not funny, it's not entertaining, and it's not informative. It's just boring. He doesn't give enough details when he should. Further, his stories are bland and not funny. Sad that what should and could have been a fabulous book was merely mundane. I quit reading at 31 percent through. Sad.

This book is a waste of money and time. Unless you want to know how much his dog poops, how much and where Andy eats (constantly), and where he's looking for love (?) don't bother.

Wow..what a letdown!! I. Although I adore Andy Cohen and think he is highly entertaining on Bravo TV, I found this book to be a true bore midway. It seemed as if Andy was trying too hard in his book details to celebrity name drop every other sentence. I found it seemed like the book was written haphazardly with not much forethought or vision..His first book written just a few years ago, on the contrary was much more entertaining and seemed into go into some depth who Andy is as a person. Unfortunately, Diaries left me feeling that he was a confused man still searching for acceptance in a shallow world of celebrities

Silly, Banal, Voyeuristic...yes it is all of those things. I was only slightly aware of Andy Cohen. He was an Executive at Bravo for years and brought us shows such as The Real Housewives, a series I have assiduously avoided. My wife suggested this based on it's popularity at the library she works at. We listened to this as an audio-book while on vacation. I believe that were I to have read this...well I wouldn't have. The saving grace in my opinion. was his narration. His world, Gay-NYC-The Hamptons-Fire Island. are so far out of my frame of reference that it was akin to Science Fiction. I have to give it three stars because, in spite of myself, I really enjoyed it. He is self-deprecating and makes no excuses for the excesses of his life. In short...a hoot

I love Andy Cohen and love his show! I just couldn't get through this book. I gave it 2 stars Bc of how much I love andy but this book was really hard to get through. It was a lot of nothing. There wasn't much behind the scenes. Half the time he just used first names and it was just he went here, ate there, walked his dog. He missed his dog when he went away. I mean a lot of nothing and not in a good way. Disappointed andy.

This book made me like Andy Cohen less than I did before I read it. He comes across as a self

absorbed shallow guy who, at 46 acts like a teenager. (not a good look) Every day in his life is filled to the brim with socializing and schmoozing with people most of us do not know by their initials alone. I felt like I was tagging along from one restaurant or bar to another and never introduced to the people at the table. His adorable dog, I think, needs to take a break and go to the dog sitter for a couple days to be with real people for a while. Don't look for Housewives dish. It isn't there.

Had high hopes that this would be one of those books I couldn't put down. Well, the book title is true, it did feel like I was reading all about a shallow year. It got tedious pretty fast, a little name dropping goes a long way and I got tired of hearing about his schedule of meetings, hosting WWHL, then partying with SJP, KR etc. I'm now familiar with his late night dog walk and half buzzed etc. And the much promised "behind the scenes dish on the housewives" didn't deliver, or was just innuendo etc. I think he thought he was being relatable or something, but how many of us can relate to celebrity pals, going to the Hamptons, Fire Island, etc. The inside scoop on the Housewives was lacking, but seemed like some of his storylines got more attention that needed. I have read enough about Lady Gaga's tee tee to last me a lifetime. I like him best for the fact he loves his dog! He just comes off like he's surrounded by fabulous people yet he's insecure and lonely underneath it. Andy you parents are right, you need a husband!.
