Synopsis

Learning harmonica really is a lot easier than you might think, especially with my new method of harmonica tablature. There are no harmonica books on the market today that present music in such an easy to read and understand form. With only 3 lines to focus on, rather than the usual musical notations of regular sheet music, the sight-reading is considerably easier to follow and understand than all other harmonicas books. This is the only Learn to Play Harmonica book you will ever need and is 10 times more complete than any other harmonica book that you can find today. The first couple riffs you tackle may seem a bit difficult, but you will get the hang of this new style in no time, and then youâ™ll be rolling along full speed ahead. Music from: the Beatles, Pink Floyd, Van Morrison, Led Zeppelin, Jethro Tull, Christmas songs, Patriotic Songs, Billy Joel, Jimmy Buffett, Elton John and moreâ |â |. You can amaze and impress everyone, even friends and relatives, by whipping off a few quick melodies of any one of a dozen songs they should recognize. Imagine yourself at the next holiday gathering when the right time comes along, you just whip out the old harmonica and crank out a few Christmas tunes. Get all the kids singing along and you will be the hit of the party. Then, while all your relatives are still in awe about your new found talent, you let loose with a Patriotic song like America, the Beautiful, and even some old Beatles songs that everyone will recognize.
