Customer Reviews

Facebook is a tricky beast to tame when it comes to marketing and sales. The reason is because there are plenty of prospects, but not a clear path as to how best to reach them with marketing. You have a wonderful product and all of these people but need someone to show you how to get your product the sales it deserves. That is where this book hits a home run. With step by step instructions and explanations of exactly the theory behind how Facebook works and how you can exploit it for all its worth. This book is a masterpiece and something anyone looking to do marketing and sales on Facebook must read!

This book delivers more content for effective Facebook Marketing than any other book or program I've invested in. The content in this book makes it undeniably evident that the author is an expert when it comes to Facebook Marketing. Which is why I invested in this book and you should too if you're serious about making more money and reaching a larger audience to share your message, story, products and services with. Seriously great content that will be worth hundreds of thousands of dollars to your business.

Normally people use Facebook for entertainment and chatting. This book is all about doing marketing of our businesses through Facebook. And no doubt this method is going to be successful if we get proper idea of using it. Most of the people have their Facebook account so it will be very easy to stay in connected with people. Nowadays, we can see that there are many advertisement and business deals that happens in Facebook but many times we just scroll down our wall and we don't notice those advertisements. It's because they were not able to attract the viewers or there is lack of strategies and innovation. If you are planning to use Facebook to publish and advertise your business then you must read this book. You will get to know all the dos and don'ts in this book which will help you very much.

Compared with other how-to books on Facebook marketing, this one is good. This book is a great resource and a must read for any businesses that is looking to enter the Facebook marketing landscape. The book is an absolutely amazing hands-on do it yourself book that is very well written and shows what you should do to start seeing quick results. Highly recommend this book to anyone interested in FB advertising tips and techniques.

I really liked this book. It's chocked with utilitarian tips, examples, and worksheets that can help the marketer create a more focused, more efficient presence on Facebook. The book also supplies a complete tour of FB's advertising options (which, as the book notes, are increasingly important today given FB's choking off of "organic reach" in the past year or so).

Facebook is a place where you can not only keep in touch with your distant relatives and share some of your finest memories, but you can also make great use of it, financially. There is a lot of techniques and ways that you can use to your advantage and a lot of them are in this book. You can promote yourself and your business and really boost the ratings.

Facebook Marketing is one of the most efficient ways to promote your own business, brands and companies. It's really easy to do and anyone can do it! Amazing book-guide on Facebook marketing. I would recommend this shape and kind of marketing to new companies that are just starting out as it really helped me out a lot.

I really liked this book. Facebook is a great place to advertise your business, so it is important to know how Facebook works. It was easy to read and understand. Author made everything very clear and I got lot of new tips how to market my business in Facebook. If you are new in this field then I definitely recommend reading this book.
