I purchased this guidebook for my family who are making a trip to Montreal in connection with auditions at the National Circus School there. I have been there before but needed detailed maps for them to be able to find both the school and a hotel. The maps only cover the center parts of the city and not all of Montreal Island so they are useless to us. The school (along with Cirque de Soleil headquarters and TOHU) are not shown. While there may be some use to what is included, this is the same issue I found with the New York City version of these guides - the whole city is not included. So if you are traveling anywhere outside the prescribed 'tourist areas' get another map!

Love it, love it, love it. Love all the Knopf MapGuides. This one was for a present. I have the Los Angeles one, the Paris one, I gave my New York away. I want them all. Any town you want to visit, they are the best guides on the market. I recommend them to all my friends in the USA, and France.

Useful if you like the feel of books but all places here could be found in the Internet and google maps offline access all the same.

I always take a Knopf Guide with me when I travel to a destination for the first time. It is invaluable and almost indestructible. The Montreal Guide gave me unique information in an easy-to-use format. Especially handy for those who don't plan down to the last detail. I love the sections of maps

that fold out and give me info on only the items I am looking at.

Excellent travel companion

I loved the compact size and easy to read maps in this guidebook. Of the three books I bought in preparation for my trip to Montreal, it was this one that I carried with me every day. I'm a big fan of maps, and the fold out maps in this guide made exploring each neighborhood easy and efficient. Best of all, though, was the well curated list of restaurants, shops, and other attractions. As I had more and more success with the guidebook's recommendations, it began to be my sole source of information. They did a great job of narrowing the myriad choices in a city like Montreal and describing them in a useful, concise way.
